INTERNATIONAL SOCIETY FOR URBAN HEALTH

Making Cities Healthier Worldwide

Welcome from the President, International Society for Urban Health

Welcome to ICUH 2017. Welcome from the cities of South Asia. Welcome from Dhaka, Delhi, Colombo, and Kathmandu. Welcome from Bangkok, Kobe, Jakarta, Kuala Lumpur, Sydney, Nairobi, Cape Town, Addis Ababa, Historical Cultural City of Istanbul, London, Oslo, Geneva and all other cities of human settlement as a symbol of individual human inspiration. We all come to the city of Coimbra to express our commitment to make our world sustainable through ensuring healthy cities.

As President of the International Society for Urban Health, it has been my pleasure to share the Dhaka Statement as an outcome document of the 2015 International conference held in Dhaka, and to say how pleased we are that, since that time, it has been a helpful guide for incorporating urban and urban health issues in the goals, targets and indicators for the Sustainable Development Goals and the New Urban Agenda as part of the UN Habitat process.

My organization “Eminence” began its work in 2003 in the urban areas of Dhaka City, Bangladesh to address the malnutrition, communicable and non-communicable diseases in the densely-populated areas. As president of the International Society for Urban Health I have been committed to act in the same inclusive way in our global and national work with partners in ISUH that has guided our work at Eminence. We hope you will become a member of ISUH and join as a changemaker for urban health and development.

Finally, I humbly thank all participants, partners, sponsors and representatives of all cities for joining us. I hope that you will take back the rich experience of exchange and learning from this conference to make your city healthy. We hope to make ISUH into a global platform to link our efforts, no matter how small or big, from whatever sector – economic, environmental, partners in governance, and governments – to work together for health, and sustainable development in urban areas.

I wish you all an inspiring and truly transformative experience.

Dr. Shamim Hayder Talukder

President, ISUH

Founder and CEO

Eminence Associates for Social Development

Welcome from the Co-Chair of ICUH2017

It is with great pleasure that I welcome you in Coimbra for ICUH2017. The Faculty of Arts and Humanities of the University of Coimbra (Department of Geography and Tourism DGT), along with the Centre of Studies on Geography and Spatial Planning (CEGOT), are honoured to host the gathering of so many prominent and excellent delegates from around the world. I am particularly proud that this is the first time in the history of the ICUH conferences that the event has been held in a small-sized city like Coimbra (Portugal), with nearly 100,000 inhabitants.

I would like to highlight that almost half of the world's urban dwellers, and 56% of Europeans, live in cities like Coimbra, where populations range between 50,000 to 500,000 inhabitants. It is therefore the right time to emphasise that the potential of small and medium-sized cities must be appreciated and finally used, to improve overall health and the quality of life of our urban populations as a way to contribute to sustainable future development.

City size should not come first, but rather the healthy urban planning that is fundamental for cities to achieve efficiency, and sustainable development. My ambitious goal for this conference is to reinforce the translation of knowledge from multi-sectoral and transdisciplinary research into strong and effective governance, with political leadership committed to improving overall population health and well-being. The challenge of health equity requires joint efforts amongst researchers, front-line practitioners, policy makers, and the population, with a holistic understanding of the wide range of health determinants and the skills and approaches necessary to address them. Given this understanding, the DGT and CEGOT prepare professionals in the field of healthy urban planning, emphasizing that strategic spatial planning is crucial for population health.

As the Co-Chair of ICUH2017, I would like to thank our generous sponsors, mainly the Municipality of Coimbra (CMC), the Coordination and Regional Development Commission of Central Portugal (CCDR-C), Tourism Centro-Portugal, the International Geographical Union Commission on Health and Environment (IGU-CHE), and CEGOT.

It was not an easy task to bring together the efforts of so many people involved in the organisation of a conference on the magnitude of the ICUH. For this reason, I would like to thank all the members of the Scientific Committee and the Local Organising Committee for their hard work and commitment over the past year. I was quite fortunate to have collaborated with a wonderful and extremely talented team in Coimbra to assure that this conference would be a great experience for all of us.

Please, feel at home in Coimbra!

Paula Santana

Co-Chair of ICUH2017

Professor, Department of Geography and Tourism (DGT), University of Coimbra

Co-Chair of the International Geographical Union's Commission on Health and Environment (IGU-CHE)

Welcome from the President, The New York Academy of Medicine

Dear Colleagues:

On behalf of The New York Academy of Medicine, which founded the International Society for Urban Health in 2002, we are proud to serve as the ISUH secretariat and join our co-sponsors in welcoming you to the 14th International Conference on Urban Health on the critical theme of “Health Equity: The New Urban Agenda and Sustainable Development Goals”. We are particularly pleased to be partnering with the University of Coimbra for this conference.

For the past 160 years, The New York Academy of Medicine has been addressing the health challenges facing New York City and the world’s rapidly growing urban population. It has helped to define the field of urban health. From our textbooks on urban health and our peer reviewed Journal of Urban Health, to establishing this Society, as well as implementing ground breaking urban health initiatives such as Age-friendly New York City, the Academy brings its expertise and commitment to advancing urban health.

As the only global professional organization in the world that focuses exclusively on the broad determinants of urban health and health inequities, ISUH understands that the health challenges and opportunities in urban environments are complex. Through its annual conferences, projects and publications, the ISUH seeks to

- **Create** a worldwide cadre of multi-sectoral, multi-disciplinary urban health leaders who are educated and trained in evidence-based and locally-relevant solutions;
- **Advance** the evidence base regarding the determinants, programs, and policies critical for achieving healthy and sustainable urban environments;
- **Improve** cross-sector collaboration to solve urban health challenges;
- **Advocate** for implementation of evidence-based policies, programs, and governance that develop healthy and sustainable urban environments and eliminate health inequities.

As global trends like population aging, the rise of non-communicable diseases and climate change underscore the importance of cities and urban health, the role of ISUH will only become more significant. As its secretariat, we at The New York Academy of Medicine look forward to working with you to take on these important challenges in the years ahead.

Enjoy the conference!

Jo Ivey Boufford

President, The New York Academy of Medicine

Welcome from Rector of the University of Coimbra

As Rector of the University of Coimbra, I warmly welcome you to the 14th International Conference on Urban Health.

Coimbra has been dedicated to knowledge for a very long time. Founded in 1290, it is one of just three universities in the world that has been classified World Heritage by UNESCO, not just because of the architecture of its buildings, but also because of the cultural influence it has had in the world. I hope you will have the opportunity to visit the architecture, at least the oldest part, as the seat of the University has more than 1000 years of continuous use: it was originally a Muslim castle, then the main palace of our first kings, and since 1537 has been the seat of the University of Coimbra.

The cultural influence of Coimbra in the world is measured by the size of the Portuguese expansion itself, as we have been the single University in the Portuguese speaking world for more than six centuries. The Portuguese have ruled over so many different and far apart places that the sun was permanently shining over some part of it. The Portuguese elite was educated at this University through the centuries, giving it a very central role in the development of Portuguese science, language and culture that can still be strongly felt today. Portuguese is the most spoken native language in the southern hemisphere.

Being able to keep relevant for such a long time requires a much focused attention to the needs of the society, and Urban Health is clearly one of them. Never has the population of Earth been so concentrated in cities, a tendency that raises formidable challenges. The question whether some very large cities are even manageable is certainly relevant. I personally think that every country should pursue active policies to prevent cities from going over a certain size, actively promoting the distribution of people over its territory.

I wish you inspiring insights and idea exchanges. The University of Coimbra community is very attentive to what you bring, as it has been over the centuries, and it is certain that we will learn a lot from you.

Sejam muito bem-vindos

João Gabriel Silva

Rector of the University of Coimbra

Welcome from the Mayor of the City of Coimbra

Welcome to Coimbra!

Our city is indeed honoured to receive the 14th International Conference on Urban Health, a distinguished international event in the field of urban health which attracts hundreds of participants from around the world, bringing together health professionals, researchers, health organisations, and political decision makers for extensive debates on the methodologies and new technologies that will have an impact on our future endeavours to improve the health of our populations.

A city firmly built upon the excellence of teaching in the Health Sciences, Coimbra is at the forefront of providing health care and conducting biomedical research. The reputation of our hospitals and the high quality of our physical and human structures, along with the excellence of our medical research centres, have contributed greatly to Coimbra's present standing as one of the top-ranked locations in the health sector internationally. The health field in Coimbra is viewed as a strategic investment with great potential for growth. Sincere congratulations go out to all those who have collaborated in the organisation of this event and have contributed to its foreseeable success.

It is our hope that this conference will provide an excellent work environment to strengthen research collaboration and to foster the creation of new projects and our earnest wish that the event meets with your expectations. We will certainly do all that we can to welcome you warmly to our fantastic and charming city!

Manuel Machado

Mayor of the City of Coimbra

Welcome from the Portuguese Ministry of Health

On behalf of the Portuguese Ministry of Health, I would like to welcome you all to this important conference, which we are proud to be hosting for the first time in Portugal, here in the City of Coimbra.

Dedicated to the theme “Health Equity: a new urban agenda and objectives for Sustainable Development,” the 14th International Conference on Urban Health will focus attention on the governance of cities and the importance of their sustainable and balanced development as a strategy for promoting health and confronting inequalities of access.

More than half of the world’s population lives in an urban environment, and Portugal is no exception. Planning and developing cities that are more inclusive, healthier, and more oriented toward physical activity and social intervention are indeed urgent challenges, ones whose solutions will afford our citizens significant gains in health, both in the medium and long-term.

Thus, it has become imperative that we secure the commitment of our municipal authorities, civil society, and our partners from the social and private sector and that we implement an action plan which adequately responds to the pressing issues of ageing, chronic disease, depression, obesity and so many other health determinants.

This conference is an ideal forum for the sharing of knowledge and the discussion of innovative solutions.

I wish everyone great success in the work we are about to undertake, certain that a more local approach to the considerable challenges facing contemporary societies will always bring benefits in the realisation of public policies.

Adalberto Campos Fernandes

Portuguese Ministry of Health

Portugal

Welcome from Executive Director, ICSU programme on Urban Health and Wellbeing

Cities are our dominant habitat. They confront us with the biggest challenges but also provide enormous opportunities to meet the sustainable development goals by addressing health in cities. In order to achieve that, we need to conceive of urban health and wellbeing inequalities as signals of urban system failures. Better understanding the complexities of urban systems and the health co-benefits they provide by taking an eco-social systems approach has great potential to improve human, urban, and planetary health.

The ICSU programme on “Urban Health and Wellbeing: A Systems Approach” welcomes the participants to the 14th International Conference on Urban Health in Coimbra and looks forward to exciting interdisciplinary and cross-sectoral discussions on health equity, the sustainable development goals and the New Urban Agenda.

It is a great opportunity for exchanging knowledge and advancing science for urban health and wellbeing.

Franz W. Gatzweiler

Executive Director, ICSU programme on Urban Health and Wellbeing: A systems Approach

Welcome from the IAP for Health Co-chairs

Dear Colleagues,

Welcome to the 2017 International Conference on Urban Health!

The InterAcademy Partnership (IAP), and in particular IAP for Health, is pleased to co-sponsor this important conference as part of an overall global initiative to advance the health of people in cities.

The InterAcademy Partnership is an umbrella organization comprising some 140 academies of science, medicine and engineering from around the world. As a component network of IAP, IAP for Health (formerly the InterAcademy Medical Panel) brings together some 80 national medical academies and academies of science and engineering with strong medical sections that are committed to improving health world-wide. The goals of the IAP for Health are to:

- Strengthen the capacity of academies to provide evidence-based advice to governments on health and science policy;
- Support the creation of new academies and the development of projects by member academies;
- Strengthen research and higher education in their countries;
- Issue consensus statements on matters of importance to global health; and
- Improve the health of all.

As the UN Sustainable Development Goals and the UN Habitat process address the important issues of urban health, IAP for Health is developing a network of academies with specific interest in urban health to serve as focal points for projects in their countries and regions to help shape their implementation plans for urban health linked to Habitat and the SDGs. We look forward to encouraging academies worldwide to play an important role in advancing urban health and working with key global and national partners in this effort in the coming years.

DHAKA STATEMENT ON URBAN HEALTH IN SUSTAINABLE DEVELOPMENT

International Conference on Urban Health Dhaka, Bangladesh, May 2015

A Call for Action

The International Society of Urban Health (ISUH) and the participants in the 12th International Conference on Urban Health call for recognition of **urban health** as a priority in sustainable development, including in the proposed sustainable development goals, targets and indicators for the post-2015 development agenda, the Third International Conference on Financing for Development, The United Nations Climate Change Conference, and Habitat III, the 2016 Conference on Housing and Sustainable Urban Development.

We are urban health experts across disciplines, practitioners across sectors, and representatives of civil society organizations from around the world committed to advancing the health of people in cities.

The Conference Recognizes that:

Currently, more than half of the world's population lives in cities and by 2050 it is estimated that 70% of the world's population will be urban dwellers. While all countries confront challenges from urbanization, the pace and scale of urbanization is now most rapid in low- and middle-income countries. Cities are the main drivers of national development and offer access to a wide array of goods and services including health, education, and social and cultural opportunities.

- People are attracted to live in urban areas because of the potential to improve their lives, including through economic opportunities. As a result, urban residents often provide important economic support to their rural home communities.
- When urban growth is effectively managed, cities can be part of the solution to sustainable national development.
- If plans for the built environment (e.g., housing, land use, transport) include consideration of health impact, cities can facilitate healthy choices of food, exercise, and social engagement, as well as maximize resilience of its residents.
- If well managed, cities can be engines of development for national economies, hubs for technological innovation and centers of positive social progress including advancing the education and empowerment of women and child survival and development.
- Population density in cities can facilitate delivery of development interventions to large numbers of people. Cities can also be sites of extreme poverty, environmental degradation, inadequate infrastructure and a combination of risk factors that have adverse effects on health. Cities can also be sites of extreme poverty, environmental degradation, inadequate infrastructure and a combination of risk factors that have adverse effects on health.

- Countries that fail to plan for increasing urbanization place their citizens at serious health, economic, and security risk.
- The health of slum dwellers and the homeless is typically well below that in other urban and rural areas, even when stratified by poverty level. These inequities are also observed in other critical development indicators that affect the health of all residents.
- In addition to traditional urban health challenges of water, sanitation, infectious diseases and environmental pollutants, city residents confront chronic diseases linked to poor diets, sedentary lifestyles, and obesity. Urban dwellers also face physical and mental health issues linked to safety, violence, poverty and unemployment, and they are at risk for road accidents and other injuries.
- Coastal cities face particular risk from the effects of climate change, including extreme weather events, natural disasters, sea level rise and Floods.
- Settlements without legal status, basic infrastructure, energy security and services can become loci of social tension, conflict, and illicit economic activity. Strong and effective governance is required to promote urban health – specifically including clear roles for city and local government and a strong public health infrastructure that can work in partnership with other sectors to prevent and mitigate potential risks and benefits to health of policies, programs, and investments across sectors (a Health-In-All approach).

The Conference Welcomes the following reports and initiatives, which acknowledge the growing importance of cities in achieving sustainable development; recognize that the health of people living in cities is affected by multiple factors, that decisions in all sectors can have positive or negative effects on human health, and that healthy people are critical to social and economic development:

- The Synthesis Report of the UN Secretary General on the Post 2015 Agenda (2014), which identifies six essential elements for delivering the SDGs and proposes 17 Sustainable Development Goals, including a specific goal for Health (#3) and for Cities (#11)
- The Joint Statement of the UN Platform on Social Determinants of Health (World Health Organization) which outlines the relationship between health and other societal goals across multiple sectors: the economy and employment; security and justice; education and early life; agriculture and food; architecture, planning and transportation; environment and sustainability; housing and community services; and land and culture
- World Health Organization recognition that urbanization is a major public health challenge in the 21st century and calls for a shared effort involving governments, international organizations, business and civil society to put health at the heart of urban policy (Urban HEART: Urban Health Equity Assessment and Response Tool, 2010) and reduce urban health inequities (Hidden Cities: Unmasking and Overcoming Health Inequities in Urban Settings 2010)
- The Nine Principles of The City We Need articulated by the World Urban Campaign, a coalition of global partners of HABITAT to promote the outcomes document of Habitat III, the New Urban Agenda and the work of HABITAT to promote well-planned, well-

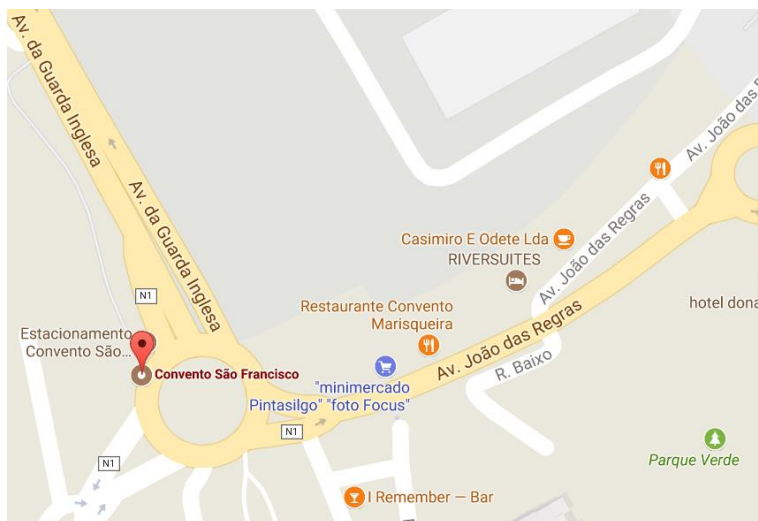

governed, and efficient cities and other human settlements, with adequate housing, infrastructure, and universal access to employment and basic services

- The updated Global Strategy for Women's, Children's and Adolescents' Health (WHO Partnership for Maternal, Newborn and Child Health) which will support achievement of the women's, children's and adolescents' health related Sustainable Development Goals (SDGs) and which prioritizes gender equality the needs of marginalized and disadvantaged communities, including those living in urban and peri-urban settings, as key to achieving equitable progress in improving health outcomes.

The Conference Encourages the Following Actions:

1. Specific reference to the critical importance of the health of urban dwellers to achieving the Sustainable Development Goals in the planned political declaration that will preface the Goals;
2. Mainstreaming consideration of the unique opportunities and challenges of urban environments across the SDGs;
3. Recognition of the pressing need for evidence-based and cost-effective interventions that address the effects of urban diversity, complexity, density and disparities on the social and structural determinants of health in order to achieve the health targets outlined in SDG Goal 3: Ensure healthy lives and promote well-being for all at all ages;
4. Inclusion of a commitment that the solutions chosen have a positive impact on human health and do not adversely affect health of people in cities, in the targets for SDG Goal 11: Make cities and human settlements inclusive, safe, resilient and sustainable,
5. Development of national-level health policy that integrates planning for rural and urban areas, and recognizes the importance of city and local level data and action to advance urban health.
6. Inclusion of targets and indicators to implement SDGs at the national level that reflect progress towards urban health and health equity;
7. Incorporation of key tools to advance the health of people in cities, including resource mobilization for capacity building, applied research and strengthening governance for urban health, in the outcome documents of the Third International Conference on Financing for Development (2015), The United Nations Climate Change Conference (2015) and Habitat III (2016);
8. Incorporation of expertise from the global professional and academic health communities in seeking to define, understand, and address the major challenges of global urban development into the intergovernmental process leading up to the United Nations Conference on Housing and Sustainable Urban Development (Habitat III), to take place in Quito, Ecuador in October 2016; and
9. Acknowledgment of the role of health as both input for and outcome of development, particularly the broad interplay between urban design, planning and management, and urban health and health equity, in the New Urban Agenda that will emerge from Habitat

CONFERENCE OVERVIEW

REGISTRATION DESK HOURS

Convento São Francisco

Tuesday, 26th September: 13:00 – 17h00

Wednesday, 27th September: 07:30 – 17h00

Thursday, 28th September: 07:30 – 17h00

Friday, 29th September: 07:30 – 10h00

NAME BADGES

Delegates must wear their name badges at all times to gain access to sessions, receptions and the poster exhibition

LANGUAGE

The official language of the ICUH2017 sessions and events is English. All conference related meeting, programmes, and events will be conducted in English only.

SPEAKERS/PRESENTERS INFORMATION

Please visit the Registration Desk with any questions on your session time(s) or room assignment(s).

Presenters must deliver the oral presentation to the Speaker Preview Room, near the Registration Desk, at least six hours before the scheduled oral presentation.

ABSTRACTS INFORMATION

The abstracts are available via a secure link. The details were sent to you via email.

WELCOME DRINK

Welcome drink will be served in the Church.

LUNCH

Lunch will be served in the Church.

COFFEE-BREAKS

Coffee-break will be served in the Cloister.

SOCIAL DINNER

Social dinner will be served in the São Marcos Palace. The Palace is located 20km from Coimbra. A bus will be provided to take you to São Marcos Palace.

Please make sure you are at the Convent São Francisco Convention Centre before **18:30**.

CONFERENCE OVERVIEW

EXTRA SESSIONS

ES1 Open Meeting, Journal of Urban Health

Meet the Editor for the Journal of Urban Health: Steps for Authors to Prepare a Successful Submission

Wednesday 7:15-8:00

Room Peninsular P0

This session will provide participants with guidance on developing manuscripts of their work suitable for publication in peer reviewed journals with a focus on the Journal of Urban Health.

ES2 Follow-up Meeting on project to develop an African Framework for Urban Health Research, Education, and Policy – *by invitation*

Wednesday 12:15 -1:30

Room Peninsular P0

ES3 International Society for Urban Health (ISUH) Business Meeting

Thursday 12:15 to 13:3

Room Peninsular P0

ISUH Members and interested individuals are invited to pick up your lunch and join us for the Annual Business Meeting of the ISUH which will feature a report from the Secretariat on activities since ICUH2016, plans for the next year, introduction of the newly elected ISUH Board members, and open discussion from the floor.

CONFERENCE OVERVIEW

CONFERENCE TOPICS

S1	Understanding and Addressing Demographic, Epidemiological and Societal Changes in Cities
S2	Urban Governance and Equity-oriented Policies
S3	Healthy Urban Planning, Measurement and Metrics, Data and Research
S4	Health Care in Cities: Access, Services and Quality
S5	Environmental Health and Urban Sustainability

The Conference will also feature four parallel sessions presenting abstracts under the theme “Culture of Health” as well as two pre-formed panels under the theme “Culture of Health” and “Healthy Placemaking”, which are supported by the Robert Wood Johnson Foundation (RWJF). These sessions are coded “PS” and “CH”.

PROGRAM CODES

PCW	Pre-conference workshop
PLW	Welcome Plenary
PL	Plenary Session
PS	Parallel Sessions- Abstracts and Panels
CH	Culture of Health Session, sponsored by Robert Wood Johnson Foundation
POS	Poster Session
ES	Extra Session

INTERNATIONAL SOCIETY FOR URBAN HEALTH

Making Cities Healthier Worldwide

Monday, September 25 | At-A-Glance

09:30-12:30 Pre-conference workshop 1

Healthy-Polis: Harnessing Opportunities for Improving Urban Health and Wellbeing through Environmental Sustainability

14:00-18:30 Pre-conference workshop 2

Shaping Policies To Promote Urban Health Equity: A Socio-Technical Approach. Evidence From The Euro-Healthy Case Studies

14:00-18:00 Pre-conference workshop 3

Human Population Patterns in Sub-Saharan African Cities: Data and Tools for Urban Health Assessments

LOCATION: University of Coimbra
Colégio de Jesus

MONDAY

MON

25/09 09:00 - 12:30 PRE-CONFERENCE WORKSHOP

PCW 1 HEALTHY-POLIS: HARNESSING OPPORTUNITIES FOR IMPROVING URBAN HEALTH AND WELLBEING THROUGH ENVIRONMENTAL SUSTAINABILITY

This Workshop has the following objects: i) to identify and discuss innovation and standardisation of epidemiological, exposure and health impact assessment methods based on big data analyses, smart sensors, citizen science, integrated modelling, and system based participatory approaches; ii) to provide a forum for international, multi-disciplinary research collaboration on urban environmental health, health equity and sustainability, leading to one or more multi-centre funding applications; iii) to evaluate and promote environmental interventions, focusing on urban life-course approaches in response to environmental change, bridging the gap between research and practice; iv) promote integration of public health research and practice into urban research and data collection agendas, to address UN Sustainable Development Goal 11: Make cities inclusive, safe, resilient and sustainable.

These objectives address ISUH goals and ICUH themes on health equity and healthy sustainable urbanization.

The following two main themes will be discussed in this workshop:

1. Research & innovation: Explore links and interactions between urban health, ecological public health, climate change, air quality and sustainable development, with specific examples for integrated life-course solutions.
2. Achieving impact: Going beyond established public and policy engagement and dissemination to the more comprehensive exploration of challenges and opportunities with agents from the public and private sectors.

This workshop targets public health practitioners, urban planners and developers, environmental scientists, air quality managers, exposure scientists, epidemiologist, toxicologists, city directors.

ORGANIZERS

Sotiris Vardoulakis, Director of Research, Institute of Occupational Medicine, and Co-Chair of Healthy-Polis International Consortium for Urban Environmental Health & Sustainability

Thomas Krafft, Faculty of Health, Medicine and Life Sciences, School for Public Health and Primary Care, Maastricht University, and Co-Chair of IGU Commission on Health and the Environment

SPEAKERS

Franz Gatzweiler, ICSU Program on Health and Wellbeing; **Alena Bartonova**, Research Director, NILU, UAE; **Lidia Morawska**, Director, International Laboratory for Air Quality and Health, Queensland University of Technology, Australia; **Silvana Di Sabatino**, University of Bologna, Italy; **Clare Heaviside**, Public Health England, UK; **Daniel Black**, db+a, UK

Other Healthy-Polis scientific advisory committee members, particularly those aiming to develop specific collaborative research proposals for funding

MON

25/09 14:00 - 18:30 PRE-CONFERENCE WORKSHOP

**PCW 2 SHAPING POLICIES TO PROMOTE URBAN HEALTH EQUITY: A SOCIO-TECHNICAL APPROACH.
EVIDENCE FROM THE EURO-HEALTHY CASE STUDIES**

The main purpose of this workshop is to explore how the framework and methods developed under the EURO-HEALTHY project can effectively assist local policy-makers in the analysis, evaluation and selection of policies aiming to promote health equity in different urban settings. Furthermore, it is expected that the workshop will lead the participants to exchange knowledge on: i) Health equity issues in different cities and the impact of local policies on intra-urban health inequalities; ii) Good practices on urban policies improving population health and decreasing inequalities; iii) *Stakeholder* involvement; iv) Evidence on how greater collaboration among researchers, stakeholders, policy-makers and civil society representatives complements the efforts to integrate research into policies and improve health equity.

The workshop will be structured in two parts. The first part will include a number of presentation sessions regarding the development of the EURO-HEALTHY's case studies of Lisbon and Turin and the methodology implemented to support the evaluation and selection of policies in each city. The second part will be focused on discussing the added-value, the opportunities and challenges of the transferability of the EURO-HEALTHY's framework, tools and approaches to other urban settings and its complementarity with other socio-ecological frameworks.

This workshop will provide a unique platform for policy makers, city councillors, health geographers, urban planners and health scientists to discuss determinants of health equity, public policies, evidence-based policy-making, evaluation methods, *stakeholders* involvement, healthy urban planning.

ORGANIZERS

Paula Santana, University of Coimbra, EURO-HEALTHY Project Leader

Ann Uustalu, European Commission Directorate General for Research & Innovation (DG RTD)

PART 1 – Evaluation of policies in the EURO-HEALTHY case studies of Lisbon and Turin

Chair: **Arlindo Phillippi**, University of São Paulo

Moderator: **Thomas Krafft**, Maastricht University

Speakers: **Paula Santana**, University of Coimbra, EURO-HEALTHY; **Paulo Correia**, University of Lisbon, EURO-HEALTHY; **Angela Freitas**, University of Coimbra, EURO-HEALTHY; **Giuseppe Costa**, Regional Epidemiology Unit of Turin, ASL TO3, EURO-HEALTHY

Panel discussion: **Arpana Verma**, University of Manchester; **Ana Diez Roux**, Drexel University, USA;

Waleska Caiaffa, Federal University of Minas Gerais School of Medicine, Brasil; **Franz Gatzweiler**, ICSU, Chinese Academy of Sciences; **João Afonso**, City Councillor, Lisbon Municipality

PART 2 – Moving evidence to action: learning lessons and knowledge transfer

Chair: **Ann Uustalu**, European Commission (DG RTD)

Moderator: **Gerard Salem**, University of Paris Ouest

Speakers: **Birgit Boissezon**, Head of Unit of Sustainable Management of Natural Resources in the European Commission (DG RTD); **Matthias Braubach**, Officer, WHO European Centre for Environment and Health; **Jason Corburn**, University of California at Berkeley, USA

Panel discussion: **Marcus Grant**, Advisor to WHO Healthy Cities Programme, Director of SHINE, Bristol Health Partners, UK; **Mark Rosenberg**, Queen's University, Canada; **Lucas Surel**, Acsantis, Paris

Plenary Session: 16:00 - 18:00

MON

25/09 14:00 - 18:00 PRE-CONFERENCE WORKSHOP

PCW 3 HUMAN POPULATION PATTERNS IN SUB-SAHARAN AFRICAN CITIES: DATA AND TOOLS FOR URBAN HEALTH ASSESSMENTS

The population of Africa is predicted to double over the next 40 years, driving exceptionally high urban expansion rates. These expected urban expansion rates will induce major changes in human population distribution, with important consequences on the environment, health and socio-economic development. The MAUPP project (Modelling and forecasting African Urban Population Patterns for vulnerability and health assessments) is a 4-year research project focusing on the development of data and methods for monitoring urban African settings and modelling population distribution. Satellite remote sensing offers an effective solution for mapping settlements, monitoring urbanization at different spatial and temporal scales and predict intra-urban variations in population density.

The quantity and quality of human population datasets available for sub-Saharan African cities remains very poor, and our objective is first to demonstrate the potentialities of newly developed data and methods in the field of urban population mapping and modelling for urban health decision making. Our broader objective is to meet potential users of our datasets in order to better design them to user needs and understand user learning requirements to inform our capacity building activities.

- Brief presentation of the MAUPP project (Catherine Linard)
- Presentation of the available datasets (Michal Shimoni & Eléonore Wolff)
- Best practices for using the datasets and example applications (Jessica Steele & Catherine Linard)
- Discussion with participants on (i) the utility of datasets in their own field of expertise, (ii) data limitations and (iii) specific requirements for urban health applications

ORGANIZERS

Catherine Linard, Spatial Epidemiology Lab (SpELL), Université Libre de Bruxelles, Brussels, Belgium; linard.catherine@gmail.com

Michal Shimoni, Signal and Image Centre (SIC-RMA), Belgian Royal Military Academy, Brussels, Belgium; mshimoni@elec.rma.ac.be

Sabine Vanhuyse, Geospatial Analysis (ANAGEO), Université Libre de Bruxelles, Brussels, Belgium ; svhuyse@ulb.ac.be

Jessica Steele, WorldPop, Geography & Environment, University of Southampton, Southampton, UK; steele.jessica@gmail.com

SPONSORS

This workshop is supported by funding from the Belgian Science Policy (SR/00/304).

Tuesday, September 26 | At-A-Glance

09:30-12:30 Pre-conference workshop 4

Learning by Doing: Inclusive, Healthy Placemaking

Pre-conference workshop 5

How to Implement and Scale Up Community Best Solutions for Improving Urban Health

Pre-conference workshop 6

How to write a great Research Paper, and get Published in a Top Journal

Pre-conference workshop 7

Training in Urban Health Equity to Shape Global Future Cities

LOCATION: University of Coimbra
Humanities Faculty

TUESDAY

PCW 4 LEARNING BY DOING: INCLUSIVE, HEALTHY PLACEMAKING

The objective of this workshop is to gather expert insight on how the inclusive healthy placemaking definition and framework could be improved and made more useful to practitioners and researchers; to explore the overlapping and complementary aspects between design/urban planning and public health research and practices, particularly related to equity; and to inspire participants to apply these early learnings to their own practices and research.

We will introduce the working definition of inclusive healthy placemaking as well as the research and practice evaluation framework, two products that resulted from multi-method research which included literature review of design, planning, placemaking, equity, and social inclusion, as well as qualitative interviews with placemakers from around the world.

Participants will visit Praça da República and Garden of Sereia to test our assumptions. We will receive an overview about the space from two local practitioners. We will then conduct an exercise based emerging indicators in our framework for inclusion, health, and placemaking. We will then return to the university, where we will have a facilitated conversation and another exercise that applies our collective knowledge on how we can best evaluate community supports and other external factors that underpin a healthy and inclusive place.

By the end of the workshop, participants will have had the opportunity to view a public space in a wholly new way. They will walk away with a common understanding of the elements and indicators of inclusive healthy placemaking and the pathways to changing practice.

This workshop is suited for public health, design and planning researchers, and practitioners interested in the role the public realm plays in supporting health outcomes, particularly with a focus on social justice and equity.

ORGANIZERS

Gehl Institute, in collaboration with **Robert Wood Johnson Foundation (RWJF)**

Jennifer Gardner, Program manager, Gehl Institute

Julia Day, Associate, Gehl

PCW 5 HOW TO IMPLEMENT AND SCALE UP COMMUNITY BEST SOLUTIONS FOR IMPROVING URBAN HEALTH

The objectives of the pre-conference workshop are to share different best solutions on community based urban health interventions and create a global learning and information sharing network on community best practice to be affiliated with the ISUH. A 'horizontal learning approach' will be proposed to showcase the benefits of evidence based practices so other countries may benefit by replicating the best practices, as adapted to their local conditions. The network will promote learning and action among members in their own cities and countries and identify opportunities to intervene in global, regional and national urban health policy. Responsibilities and resource mobilization for the thematic network will be defined.

Among the topics to be discussed by panellists in active dialogue with all workshop attendees include: Indicators and targets for measuring community best practices within the SDGs goals; how to engage and scale up the community best solutions; how to share the best solution knowledge among the partners and stakeholders; mobilizing local resources for community best solutions. Participation by NGOs, UN Agencies, academicians, students, managers, policy makers and funding organizations with track record of implementing successful community based practice are encouraged.

The workshop will feature a combination of panel discussion, small group work and plenary session to bring together the elements of an action plan.

ORGANIZERS

Chair: Jo Ivey Boufford, President, New York Academy of Medicine,

Speaker:

Shiv Kumar, Founder and Chief Mentor, Swasti, India

Noor Mohammad, Executive Director, PSTC, Bangladesh

PCW 6 HOW TO WRITE A GREAT RESEARCH PAPER, AND GET PUBLISHED IN A TOP JOURNAL

Knowing the best way of structuring your paper when writing it, and the most appropriate journal to send it to, really helps in getting your paper accepted. Also understanding how editors and publishers think and what they expect, and knowing how the peer review process works, is invaluable insight into the publishing process.

After attending this workshop, one in the Elsevier Publishing Connect Workshop series, participants will have a clear idea of the steps needed to be taken before starting to write a paper. They will also be able to plan writing manuscripts using the logical step sequence – not the sequence in which the paper will be read. Authors are also made aware of what aspects of their papers Editors and Publishers look at critically, and to ensure that in taking care of these areas, their papers are much more likely to be accepted. Dealing with referees' comments and the art of polite rebuttal are also described such that these can be used to improve the submitted paper suitably. Sensitive areas such as publishing ethics, plagiarism, duplicate publishing, etc are also clearly explained such that participants have a clear understanding of what is allowed, and what is not permitted.

These insights into the publishing process will enable the participants to be more confident as an author in the world of science publishing, and will help them get their papers published more easily.

Keywords: Publishing, Paper authorship, ethics, journal.

The target audience of this workshop are early career researchers.

ORGANIZERS

Deirdre Dunne, Environmental Sciences Department, Elsevier, Amsterdam, The Netherlands

PCW 7 TRAINING IN URBAN HEALTH EQUITY TO SHAPE GLOBAL FUTURE CITIES

The ISUH is committed to supporting and shaping urban health education around the world. This pre-conference workshop will build on previous global dialogues and ICUH sessions. The results of a global survey conducted by the International Society for Urban Health (ISUH) Working Group on Education and Training to gather models for urban health education will be presented.

This workshop will discuss the training needs for promoting urban health equity. We will hear from participants and invited guests on how to organize new training in urban health equity in university settings, define core competencies, and engage city decision-makers and NGOs to move from education to practice.

At the end of the session, participants will:

- (a) have an understanding of current university-level urban health training programmes;
- (b) discuss and co-design the core competencies for a global urban health training programme; and
- (c) shape the work plan for the ISUH Working Group on Education and Training for 2018.

The workshop is open to academics, NGO leaders, government officials and others from disciplines including public health, urban planning, medicine, geography, design and others.

26/09 16:00-18:00 PLENARY 1

PL1 **INTEGRATING WORK ON THE SDGS AND THE NEW URBAN AGENDA TO IMPROVE HEALTH EQUITY IN CITIES**

Room: Main Auditorium

The United Nations Sustainable Development Goals and New Urban Agenda provide goals and frameworks for countries and regions to achieve higher levels of economic and social development. Cities and the pace of urbanization worldwide make the need for integrated planning and implementation of interventions to achieve these goals critical. The commitment that “no one be left behind” reinforces the importance of health equity as a cross-cutting theme in urban settings.

PS1.1 PRE-FORMED PANEL

Growing old in urban slums: challenges to the health of older people living in informal settlements

Room: Main Auditorium

Chair: Megumi Rosenberg, Technical Officer, WHO Centre for Health Development

This panel will address the dynamics of ageing and health in urban informal settlements. Addressing this aspect of the urban reality is critical for the pursuit of key interlocking global development agendas: the Sustainable Development Goals, the New Urban Agenda and the Global Strategy and Action Plan on Ageing and Health. Expert panellists from Africa, South Asia and Latin America, where the world's largest slum areas are found, will share evidence and insights on key challenges and opportunities for optimizing the health of those who are old, or growing old, in urban slums.

SPEAKERS

Isabella Aboderin, Head, Aging and Development Program, African Population and Health Research Centre

Waleska Caiaffa, Professor, Federal University of Minas Gerais & Belo Horizonte Observatory for Urban Health

Abdur Razzaque, Emeritus Scientist, icddr,b

Discussant

John Beard, Director, WHO Department of Ageing and Life Course

27/09 08:00 - 09:00 PARALLEL SESSION (ABSTRACTS)

PS1.2 PRE-FORMED PANEL

Implementation research priorities in urban health in East Africa

Room: Mondego C2A

Chair: Yoswa Dambisya, East, Central and Southern Africa Health
Community

Neal Brandes, United States Agency for International Development

Implementation research can serve to advance how urban health issues are addressed, particularly considering the multi-sectoral nature of many of the challenges. The panel participants represent a Regional Ministerial Governing Body, donor, civil society, and research institutions. Panelists will present on evidence needs, gaps and opportunities born out of a multi-stakeholder consultation focused on nutrition, and water, sanitation and hygiene (WASH) interventions to meet the needs of the poorest children residing in urban areas of East Africa. Panelists will discuss determinants of urban health challenges, review the relevant evidence, share stakeholder perspectives and propose a set of implementation science priorities to advance the health of children in urban areas.

SPEAKERS

Prea Gulati, Independent Consultant

Masuma Mamdani, Ifakara Health Institute

D. Okello, Kampala City Council Authority

Jane Muuma, Great Lakes University of Kisumu (GLUK)

Does multidisciplinary rehabilitation of traumatised refugees provide 'value-for-money'? A long-term follow-up of an urban refugee population living in Copenhagen, Denmark

L. Bager (1), K. Hansen (2), C. Andersen (3), S. Wang (1)

(1) DIGNITY - Danish Institute Against Torture Denmark, (2) University of Copenhagen Denmark, (3) Decision Consult Denmark

Break: 9:00 - 9:10

WED

27/09 09:10 - 10:10 PARALLEL SESSION

PS2.1 PRE-FORMED PANEL

Water, Sanitation, Hygiene (WASH) and health in informal settlements

Room: Main Auditorium

Chair: Joanna Esteves Mills, Environmental Health Group, London School of Hygiene and Tropical Medicine

This session will draw on recent research to demonstrate the higher WASH-related health risk associated with high-density urban areas, as well as the unique risks and exposure pathways characteristic of such environments. It will also explore a number of potential avenues for addressing these challenges, including the issue of demand-creation for WASH services among informal settlements, understanding the determinants of behaviour in complex urban environments, and the opportunities and barriers associated with the model of decentralised services.

SPEAKERS

Robert Dreibelbis, LSHTM – Challenges and opportunities for WASH behaviour change in urban and informal settlements

David Berendes, Georgia Institute of Technology – Exploring health impacts of decentralised sanitation systems

Jane Mumma, Great Lakes University of Kisumu, Kenya – Unique risks and pathways in peri-urban environments

Roma Chilengi, Centre for Infectious Disease Research, Zambia – Increasing sanitation demand as one key element for successful interventions

Break: 10:10 - 10:40

WED

27/09 09:10 - 10:10 PARALLEL SESSION

PS2.2 Health Care in Cities: Access, Services and Quality
Health care provision & utilization in urban areas

Room: Mondego C2A

Chair: Mark Rosenberg, Queen's University, Canada

Gender differentials in prevalence of Non communicable disease multimorbidity and associated health care utilization and expenditures in selected BRICS countries: cross-sectional study

A. Pal (1).

(1) International Institute for Population Sciences India

Acute poisoning in children and adolescents reported at the Toxicology Center in the Northeast of Brazil, 2012-2014

Deciphering citizen engagement in primary health care in Western Kenya

J. Sitienei (1), M. Nangami (1), L. Paina (1), R. Kesgei (1)

(1) University of the Witwatersrand Kenya, (2) Moi University Kenya

Coffee break: 10:10 - 10:40

WED

27/09 09:10 - 10:10 PARALLEL SESSION

PS2.3 PRE-FORMED PANEL

What makes places more conducive to achieving a culture of health?

Room: Aeminium C1A2

Chair: Sharon Roerty, Senior Program Officer RWJF

In this panel, Gehl Institute will first introduce an evaluation framework for inclusive, healthy placemaking to the audience and describe some of the key elements gathered from literature and global scan of practice. We will then hear from practitioners working on the ground in cities around the world about their successes and challenges in creating public spaces for improved health and equity, either in close collaboration with municipalities or through a public campaign. Through the discussion, we will test the strength of the emerging framework and surface key actions practitioners, researchers, decision-makers, and other stakeholders could take to contribute to the cross-sectoral effort that inclusive, healthy placemaking requires.

SPEAKERS

Sharon Roerty, Senior Program Officer RWJF

Jennifer Gardner, Program Manager, Gehl Institute

Louise Kielgast, Associate, Gehl practice

Jorge Canez aka Peatonito, pedestrian activist, founder of Pedestrian Action League, Mexico City

Coffee break: 10:10 - 10:40

WED

27/09 09:10 - 10:10 PARALLEL SESSION (ABSTRACTS)

PS2.4 Healthy urban planning, measurement and metrics, data and research
Climate & Health II

Room: Aeminium C1A4

Chair: Sotiris Vardoulakis, Institute of Occupational Medicine (IOM), UK

Noise exposure based on urban morphology

M. Albrecht (1), B. Bechtel (1), J. Böhner (1), P. Hoffmann (1), T. Kraft (1), J. Oßenbrügge (1), M. von Szombathely (1)

PS3.1 PRE-FORMED PANEL

Measuring age-friendliness and the liveability of cities for ageing populations

Room: Main Auditorium

Chair: John Beard, Director, WHO Department of Ageing and Life Course

This panel will illustrate different approaches to evaluating Age-friendly City (AFC) initiatives. It will present available tools, including the WHO core indicators of age-friendliness, a process-oriented evaluation tool developed in the UK, and the AARP liveability indicators. It will also showcase Age-friendly City assessments from around the world, including a pilot study of the WHO core indicators in Washington, DC; New York City's new effort to develop an interactive map of ageing-related data to facilitate more informed planning and equitable deployment of resources; a large-scale mixed-methods evaluation by Age-friendly Quebec; and an assessment of community liveability in Shanghai.

DISCUSSANTS/SPEAKERS

Megumi Rosenberg, Technical Officer, WHO Centre for Health Development

Stefanie Buckner, Research Associate, Cambridge Institute of Public Health

Peter Schafer, Acting Director, Center for Health Policy and Programs, New York Academy of Medicine

Xiaocang Ding, President, Jing'an Preventive Medicine Association, I KNOW Elder Health Management and Service Centre, Shanghai

Coffee break: 15:30 - 16:00

WED

27/09 14:00 - 15:30 PARALLEL SESSION (ABSTRACTS)

PS3.2 Healthy urban planning, measurement and metrics, data and research
Methods for Data collection

Room: Mondego C2A

Chair: Waleska Caiaffa, Federal University of Minas Gerais, Brazil

Temporary position estimation of people in urban areas using georeferenced social network data

27/09 14:00 - 15:30 PARALLEL SESSION

PS3.3 PRE-FORMED PANEL

The Role of Technology in Accelerating the Urban Health Agenda in LMICs

Room: Aeminium C1A2

Chair: Roberta Bosurgi, Head of Urban Health Initiative, Novartis Foundation, Switzerland

Geoffrey So, Head of Partnerships, Novartis Foundation

The session will examine the gaps that need to be addressed in low- and middle-income countries (LMICs), with respects to surveillance and data-driven decision making for urban planning and public health; digital innovations that are leapfrogging urban wellbeing; financial and sustainability challenges; and highlight case examples of how technology is transforming urban health, including non-communicable diseases that disproportionately affect LMICs. The existing and emerging urban health challenges are complex and cannot be addressed by one academic discipline or the governmental sector alone. There is an urgent need for multidisciplinary and multisector approaches to make cities inclusive, safe, resilient and sustainable.

SPEAKERS

John Rossant, Chairman, The New Cities Foundation (Canada), “Incubating Local Innovations to Address Urban Health Challenges in LMICs”

Alain Labrique, Associate Professor, John Hopkins School of Public Health (USA), “Leveraging Data and Technology to Address Equity and Access to Health at a Population Level in LMICs”

Colin Machale, General Manager, Health and Life Sciences, Europe Middle East Africa (USA), “Leapfrog Technologies for Health and Development in LMICs”

PS3.9 PRE-FORMED PANEL

Situating Health Interventions in Diverse Urban Communities: Feasibility, Modifications, and Content

Room: Conventual C1D

Chair: Gerald Bloom, Co-convenor of the Health and Nutrition Cluster,
Institute of Development Studies, UK

This pre-formed panel will discuss the importance of place in designing, adapting and delivering community-based interventions to prevent or manage disease and promote healthy outcomes. Evidence based public health interventions when translated to diverse urban spaces and/or across international boundaries require modifications in order to make them feasible, linguistically appropriate, effective and relevant to the environmental conditions of the community, even when its aim is fidelity to focus, target population, and content. Presenters will identify and discuss the challenges experienced in delivering evidence based and manualized interventions in diverse urban spaces. The panel is designed to be interactive, encouraging active discussion and exchanges on intervention design, strategies and outcomes from audience participants.

SPEAKERS

Elena Bastida, Department of Health Promotion and Disease Prevention , Robert Stempel College of Public Health & Social Work, Florida International University, Miami, FL, USA

Mario de la Rosa, School of Social Work and Department of Health Promotion and Disease Prevention, Robert Stempel College of Public Health and Social Work, Florida International University, Miami, FL, USA

PL3 URBAN GOVERNANCE AND EQUITY-ORIENTED POLICIES

Room: Main Auditorium

Effective local government is essential to creating and implementing more inclusive and effective policies for sustainable urban development and health equity. One of the critical requirements of effective government is the ability to engage the multiple stakeholders within and across sectors of government, organizations of civil society and communities themselves to align their work towards a mode of “governance” to promote health equity across urban populations. The panel will discuss models that work and challenges to successful inclusive governance.

CHAIR

Marcus Grant

Advisor to WHO Healthy Cities Programme; Director of SHINE; Bristol Health Partners, UK

PANELLISTS

Jason Corburn

Associate Professor of City & Regional Planning, University of California at Berkeley, USA

David Grossman

Director of Global Program Management, International City Managers Association, USA

Susan Parnell

Professor of Urban Geography and co-founder of the African Centre for Cities at the University of Cape Town, South Africa

27/09 17:40 - 19:10 PARALLEL SESSION

PS4.1 PRE-FORMED PANEL

The state of the art of urban governance to promote health equity: a follow-up to the 2016 WHO Global Report on Urban Health

Room: Main Auditorium

Chair: Jo Ivey Boufford, President, New York Academy of Medicine

This panel will address the conference theme of “Urban governance and equity-oriented policies”. With its strong focus on equity, it speaks to the core of both the New Urban Agenda and the Sustainable Development Goals. This is a follow-up to the launch of the 2nd WHO Global Report on Urban Health at last year’s ICUH. The expert panellists, who contributed to the Global Report, will discuss various aspects of urban governance, from effective governance strategies to monitoring and benchmarking, with a view toward advancing research and practice concerning urban governance strategies that have demonstrable impact on health equity.

DISCUSSANTS/SPEAKERS

Megumi Rosenberg, Technical Officer, WHO Centre for Health Development

Jason Corburn, Professor, University of California Berkeley & Director, Institute of Urban & Regional Development, Center for Global Healthy Cities

Tolu Oni, Senior Research Medical Officer, Institute of Infectious Disease and Molecular Medicine, University of Cape Town

José Siri, Research Fellow in Urban Health, United Nations University International Institute for Global Health

WED

27/09 17:40 - 19:10 PARALLEL SESSION

PS4.2 PRE-FORMED PANEL

Urban health in Latin America and the Caribbean: promoting research and evidence-based policy through the LAC-Urban Health network

Room: Mondego C2A

Chair: Ana Diez Roux, Drexel University, USA

LAC is unique in having attained a high level of urbanization (~80%) far more quickly and with less resources than other highly-developed regions. LAC thus faces unique urban health challenges, and has responded with transformative innovation. The LAC-Urban Health research network aims to build new linkages among LAC researchers and with global knowledge and policy networks; to better understand how urban policies affect urban health; to promote increased research funding; and to derive lessons of value to other regions facing rapid urbanization. This panel features researchers from LAC-Urban Health to report on new initiatives and findings from the region.

SPEAKERS

Ana Diez Roux, Drexel University Dornsife School of Public Health: *A major new Wellcome Trust-funded urban health research initiative in Latin America*

Martha Barata, Instituto Oswaldo Cruz: *Managing Climate Change Threats to Human Health in Cities - case study of the city of Rio de Janeiro*

Waleska Caiaffa, Observatory for Urban Health in Belo Horizonte (OSUBH): *Monitoring the implementation of the Programa Vida no Trânsito in 31 Brazilian cities: from local to federal*

Thiago Hérick de Sá, World Health Organization: *Enabling the health sector to lead the urban transformation*

Eliana Martinez Herrera, Universidad de Antioquía: *Moving beyond the concept into the metrics: a technical perspective from building community and political decision for enhancing healthy citizen capacities in Medellin 2012 -2015.*

Anne-Dorotheé Slovic, Universidade de São Paulo: *Assessing local understanding of the health effects of air pollution exposure while commuting to work: a São Paulo survey*

WED

27/09 17:40 - 19:10 PARALLEL SESSION

PS4.3 PRE-FORMED PANEL

Realising the Potential of Workplaces to shape Healthy Cities: The Role of Employers in Urban Health

Room: Aeminium C1A2

Chair: K Srinath Reddy, President, Public Health Foundation of India

With the global labour force set to increase to 3.5 billion by 2030, there is an unprecedented opportunity to harness the transformative power of workplaces as an effective setting to prevent and manage NCDs. The session will highlight relevant approaches to catalyse efforts by employers, local authorities, and national governments worldwide to promote and protect the health of their workforces, presenting evidence, potential solutions, and concrete examples of good practice. Panellists will explore the significance of workplace wellness within the post-2015 development agenda, define the investment case for implementing workplace wellness initiatives, and demonstrate the essential nature of a cross-sectoral approach.

SPEAKERS

Faten Ben Abdelaziz, Coordinator of Health Promotion, World Health Organization (Switzerland) – ‘Health in the Post-2015 Development Agenda: Leveraging Workplaces for a Healthy Future for All’

Trevor Hassell, President of the Healthy Caribbean Coalition, Government of Barbados, Special Envoy on NCDs and Chairman of the National NCD Commission (Barbados) – ‘Promoting and Creating an Enabling Environment for Healthy Behaviours at Work: Opportunities for City Leaders to Act’

Katy Cooper, Independent Consultant (UK) – ‘A Review of Workplace Health Initiatives: Successes and Challenges’

Roberta Bosurgi, Head of Urban Health Initiative, Novartis Foundation (Switzerland) – ‘Investing in a Healthy Workplace: A Cost-Effective Strategy for Businesses to Contribute to the NCD Fight’

Adriana Ignea, Revenue Authority & Ghana Network Services (Ghana) - Case study of GIZ supported Workplace program in Ghana; focusing on aspects including multi-disciplinary engagement, public-private partnerships, sustainability, and integration of the insurance sector.

WED

27/09 17:40 - 19:10 PARALLEL SESSION (ABSTRACTS)

THU

28/09 08:00 - 09:00 PARALLEL SESSION

PS5.1 PRE-FORMED PANEL

Scaling for impact: A critical look at how low-cost innovations are creating healthier and resilient cities

Room: Main Auditorium

Chair: Gerald Bloom, Co-Convener Health and Nutrition Cluster, Institute of Development Studies, UK

The United Nations projects the increase of urban populations from 3.3 to 4.9 billion worldwide by 2030. Much of that growth is slated to occur in cities of the developing world. This has huge implications on how established and new cities in these countries manage and plan for the health of their populations. New models of urban healthcare increasingly involve low-cost, high-quality socially linked interventions enabling diverse populations to better access and utilise health services. This panel discussion will critically examine the evolution and approaches of urban health innovation eco-systems across 3 focus areas. Panellists will draw on their different experiences with implementing and/or analysing interventions aimed at enabling pro-poor innovations to diffuse at scale in increasingly diverse and complicated health networks.

SPEAKERS

Priya Balasubramaniam, Senior Public Health Scientist, Public Health Foundation of India

Audrey Chia, Associate Professor & Director Healthcare Leadership Programme, Business School, National University Singapore

Kristian Olsen, Medical Director, Consortia for Affordable Technologies (CAMTech), Harvard Medical School

Break: 09:00 - 09:10

THU

28/09 08:00 - 09:00 PARALLEL SESSION

PS5.2 PRE-FORMED PANEL

The long journey to urban health: linking migrants, cities, and sustainable development

Room: Mondego C2A

Chair: Inez Roosen, UNU-MERIT

Increasingly, migration patterns and policies shape urban health not only among migrants, but in their origins and destinations. Urban planning and development policies that consider migrants can lead to broad individual and societal benefits. Policies that exclude or ignore them may severely impact individual physical and mental health and the economic functioning, social integration, social trust and resilience of host and sending communities. Such policies may also widen equity gaps, further affecting health and wellbeing. In this panel, researchers from UNU-IIGH and IOM will explore connections among cities, health, and migration using case studies, policy analysis, and systems thinking frameworks.

SPEAKERS

Nicola Pocock, UNU-IIGH

Defining linkages between migration, urban health, and equity

Davide Mosca, IOM

Migration, health and urbanization: interrelated challenges

Bavo Stevens, UNU-GCM

The role of UNHCR and NGOs in shaping the well-being of refugees and asylum seekers in Bangkok, Thailand

THU

28/09 08:00 - 09:00 PARALLEL SESSION

PS5.3 PRE-FORMED PANEL
Healthy Aerotropoleis

Room: Aeminium C1A2

Chair: Jean Simos, Institute of Global Health, Université de Genève, and
Association Genevoise pour le Développement Communautaire

Airports are seen as forms of urban agglomerations: aerotropoleis. The development of a second international airport in Sydney (Australia) creates an opportunity to consider health making dimensions of such settings. Health scholars and practitioners aim to set a global benchmark for 'Healthy Aerotropoleis'.

In this panel we will present the outcomes of a Healthy Airport Health Impact Assessment, Healthy Airport Region modeling and validation, and an assessment of an airport-dwelling community. Our conceptual progress toward this new 'Healthy Setting' merits discussion and feedback with global urban health colleagues.

SPEAKERS

Evelyne de Leeuw, Centre for Health Equity Training, Research and Evaluation CHETRE, University of New South Wales Sydney, South Western Sydney

Alana Crimeen, Centre for Health Equity Training, Research and Evaluation CHETRE, University of New South Wales Sydney, South Western Sydney

PS6.1 PRE-FORMED PANEL

How do we define and achieve an inclusive healthy placemaking project?

Room: Main Auditorium

Chair: Sharon Roerty, Senior Program Officer, RWJF

Practitioners, policy makers and research all work towards understanding the dynamics needed and the roles that community and other stakeholders should play when identifying, designing, or upgrading public spaces that support healthy and inclusive communities. The Robert Wood Johnson Foundation seeks to better understand how to achieve inclusive, healthy placemaking (a people-centered approach to the planning, design, and management of public spaces) by learning from global approaches that can then be applied to the United States. The purpose of this panel is to present examples of approaches to healthy placemaking from different regions of the world and share learnings among the panelists and with the audience about the opportunities and challenges of creating public spaces that promote people's health, happiness, well-being, and community cohesiveness. Moderated by Susan Roerty of the RWJF, four panelists who are active in the general area of inclusive, healthy placemaking will discuss their projects and/or research.

PS6.2 PRE-FORMED PANEL

Uniting for Healthy Cities: Integrated Approaches to Healthcare Delivery for HIV and NCDs

Room: Mondego C2A

Chair: K Srinath Reddy, President, Public Health Foundation of India

HIV and cancer represent two global disease burdens – one infectious, one non-communicable. Both diseases are chronic in nature and pose challenges to sustained health care, further augmented by high urban population densities. Urban environments are associated with increased exposure to risk factors for cancer, while a tailored response in cities is also essential to end AIDS as a public health threat by 2030. The New Urban Agenda and the Sustainable Development Goals mandate collaborative action across health specialties and across the whole of society as the central means through which health may be protected and promoted in urban settings.

SPEAKERS

K Srinath Reddy, President, Public Health Foundation of India

Unlocking the Potential of Community-Driven Public/Private Partnerships (PPPs) to Reduce Harmful Alcohol Use

Room: Aeminium C1A2

Chair: Peter Anderson, Professor of Substance Abuse, Policy and Practice, Newcastle University; Professor, Alcohol and Health, Faculty of Health, Medicine and Life Sciences, Maastricht University, The Netherlands

In December 2015, AB InBev announced the Global Smart Drinking Goals (GSDG), its commitment to meaningfully contribute to the reduction of harmful alcohol use over the next decade. One of the stated goals is to reduce harmful alcohol use by at least 10% in nine cities. This panel will bring together leadership from the AB InBev Foundation, the GSDG Technical Advisory Group, and a public-private partnership in one of the nine cities [Brasilia, Brazil or Leuven, Belgium] to describe their journey towards achieving this ambitious set of goals. Emerging ideas in the architecture, as well as models for strong governance, program planning and implementation, and measurement & evaluation will be explored.

DISCUSSANTS/SPEAKERS

Westley Clark, Former Director, Center for Substance Abuse and Treatment (CSAT), U.S. Substance Abuse and Mental Health Services Administration (SAMHSA) Department of Health & Human Services (HHS), Chair, GSDG Technical Advisory Group

Leonardo Moreira, Steering Committee Member, GSDG City Pilot in Brasilia, Brazil

Scott Ratzan, President, AB InBev Foundation

Break: 10:10 - 10:40

PL4 HEALTHY URBAN PLANNING, MEASUREMENT AND METRICS, DATA, RESEARCH & EDUCATION

Room: Main Auditorium

There is increasing understanding of the importance of evidence based decision making in urban planning and management. For those seeking to advance a health agenda, evidence on the health impact of decisions in all sectors are significant. Critical challenges in creating the needed evidence include the systems to collect data, data quality and availability, and how it can best be used by public managers, policy makers and communities themselves to set realistic metrics for measuring progress towards a healthier and more equitable urban environment. Partnerships between academia and government can offer advantages in achieving a holistic understanding of health determinants and the skills needed to address them.

PS7.1 PRE-FORMED PANEL

**Cities as a driving force for integrating health in the New Urban Agenda:
Barcelona and Beyond**

Room: Main Auditorium

Chair: Howard Frumkin, University of Washington, USA

Although the New Urban Agenda was signed by nations, cities will drive implementation. This creates a critical opportunity to integrate health into urban planning to achieve its goals. Greater collaboration between public health and urban transport and design can help build common language, tools and approaches to protect and promote population health across sectors.

Barcelona is one of Europe's most densely populated cities and embodies many urban challenges. Using Barcelona as a case study, and drawing on experts from research and policy, this session examines how cities are and can become leaders in bringing health to the forefront of NUA.

SPEAKERS

Cathryn Tonne, Associate Research Professor, Barcelona Institute for Global Health

Helen Colel, Postdoctoral Researcher; Barcelona Lab for Urban Environmental Justice and Sustainability, Universitat Autònoma de Barcelona

PL5 **Health Care in Cities: Access, Services and Quality**

Room: Main Auditorium

Access to personal health care services is an important determinant of health. This session will explore models for achieving high quality health care provision and effective health care access in cities. It will also explore the role that health care delivery organizations can play in advancing the health of the communities they serve and assuring health equity.

CHAIR

Mark Rosenberg

Professor of Geography, Queen's University, Ontario, Canada

PANELLISTS

Pedro Pita Barros

Professor of Economics, Nova University of Lisbon, Portugal (Portugal)

Steffen Nielsen

Director, Cities Changing Diabetes®, Novo Nordisk, Denmark

Easmon Otupiri

Senior Lecturer, Kwame Nkrumah University Of Science and Technology, Kumasi, Ashanti Region, Ghana

Break: 17:00 - 17:10

28/09 17:10 - 18:40 PARALLEL SESSION

PS8.1 PRE-FORMED PANEL

Understanding the impact of economic crises on the population's mental health in urban areas

Room: Main Auditorium

Chair: José Miguel Caldas de Almeida, CEDOC, NOVA University of Lisbon, Portugal

The panel includes qualitative and quantitative analyses of the perceived impact of the economic crisis in the Lisbon region, assessed by the general population and primary care users and professionals, followed by analysis of the mental health provision in urban areas during economic crises, using a novel mapping methodology. Patterns of mental health services provision in Barcelona, Bilbao, Helsinki, and Sydney will be analysed, to understand the strengths and the weaknesses of mental health systems. Finally, recommendations to improve quality and a more equitable provision of mental health care in urban areas in times of economic crises will be provided.

SPEAKERS

Ana Antunes, CEDOC, NOVA University of Lisbon, Portugal

Diana Frاسquilho, CEDOC, NOVA University of Lisbon, Portugal

Adriana Loureiro, CEGOT, Coimbra University, Portugal

PS8.2 PRE-FORMED PANEL

Urban environment, health and equity – policy and action

Room: Mondego C2A

Chair: Matthias Braubach, Technical Officer, WHO European Centre for Environment and Health

Sotiris Vardoulakis, Director of Research, Institute of Occupational Medicine, United Kingdom

The session aims to discuss key urban environmental health challenges, the implications of the SDGs and other international commitments for local action, and how local work can be best supported through the provision of data, guidance and tools. Specific focus will be put on the relevance of monitoring urban environments, and how monitoring and impact assessment methods can help integrated and healthy urban planning.

Contributions will be provided by two international organizations involved with the health impacts and surveillance of urban environments (WHO / EEA), and by two researchers presenting their work on the health impacts of urban structures.

SPEAKERS

Theo van Alphen, Researcher, National Institute for Public Health and the Environment, Bilthoven, The Netherlands

Matthias Braubach, Technical Office Urban and Health Equity, WHO European Centre for Environment and Health, Bonn, Germany

PS9.8 PRE-FORMED PANEL
India's Growth: Cities on the Horizon

Room: Conventual C1D

Chair: Lucy Mize, USAID/Washington, the Asia Bureau

Anuradha Jain, Project Management Specialist (Urban Health), USAID

With the growth of secondary and tertiary cities in India, the urban landscape is very dynamic. Private sector partners and donor organizations, as well as the government of India through its formation of the National Urban Health Mission, are responding to this dynamism with varied approaches. Stakeholders are trying to tap into the energy of the markets and growth while addressing continued pressing urban issues, such as slum settlements and environmental constraints. This panel will present some of the varied approaches being tried in India with a discussion of results to date and anticipated impact.

Dhaka Statement on Urban Health and Way Forward to Achieving the SDGs

Room: Main Auditorium

Chair: ASM Mahbubul Alam, Chief Coordinator, UPHCP, LGD, Government of the People's Republic of Bangladesh

The session will discuss the need for and status of developing the indicators, targets and goals for the SDGs for countries to use to monitor progress in achieving urban health. This includes the challenge of priority setting among multiple social determinants such as : women empowerment and education, poverty reduction and access to food and nutrition, urban planning, energy, transportation, housing and information technology, migration and access to universal health services.

The session will also describe the partnership status and way forward for achieving the urban health related indicators and targets of the SDGs. It will consider how the Dhaka Statement for Urban Health can be useful in this process.

ENVIRONMENTAL HEALTH AND URBAN SUSTAINABILITY

Room: Main Auditorium

Built and natural environments are important determinants of health in cities. This session will explore a variety of urban environmental challenges, including air quality, soil and water contamination, traffic congestion, noise, poor housing conditions and the effects of climate change. Strategies for sustainable urbanization must include commitments for action towards achieving healthy urban environments that prevent and protect the population from environmental hazards.

CHAIR

Marian Jacobs

Emeritus Professor of Paediatrics and Child Health, University of Cape Town, South Africa

PANELLISTS

Yongguan Zhu

Professor of Soil Environmental Sciences and Environmental Biology, Chinese Academy of Sciences (CAS); Director General, Institute of Urban Environment, Xiamen, China

Sotiris Vardoulakis

Research Director, Institute of Occupational Medicine, United Kingdom

Lidia Morawska

Director of the International Laboratory for Air Quality and Health (ILAQH), Queensland University of Technology (QUT), Australia

Eugenie Birch

Lawrence C. Nussdorf Professor of Urban Education and Research, University of Pennsylvania, USA; Former Chair of the United Nations Human Settlements Programme's World Urban Campaign

FRI

29/09 12:00 - 12:30 CLOSING CEREMONY

The Closing ceremony will include reflections on the main conclusions of the conference from the conference hosts and transfer of leadership of the International Society for Urban Health from the current president, Dr. Shamim Talukder to the newly elected president, Dr. Jo Ivey Boufford. The venue for the next conference will be announced.

Paula Santana

Co-chair of International Conference of Health, ICUH2017, University of Coimbra

José Pedro Paiva

Dean of Faculty of Arts and Humanities of UC (FLUC)

Fernando de Jesus Regateiro

Chairman of the Board of Coimbra Hospital and University Centre (CHUC)

José Tereso

Regional Administration for Health President (ARS-C)

Jo Ivey Boufford

President of the New York Academy of Medicine

INTERNATIONAL SOCIETY FOR URBAN HEALTH

Making Cities Healthier

PLENARY SPEAKER BIOS

PLENARY SESSION 1: Integrating work on the SDGS and The New Urban Agenda to improve health equity in Cities

Jo Ivey Boufford, *President, The New York Academy of Medicine, USA*

Jo Ivey Boufford, MD, is the President of The New York Academy of Medicine. She is a Professor Emeritus of Public Service, Health Policy and Management at the Robert F. Wagner Graduate School of Public Service and a Clinical Professor of Pediatrics at the New York University School of Medicine. She is Co-Director of the National Program Office of the Robert Wood Johnson Foundation Health and Society Scholars Program. She served as Dean of the Robert F. Wagner Graduate School of Public Service at New York University from June 1997 to November 2002. Prior to that, she served as Principal Deputy Assistant Secretary for Health in the U.S. Department of Health and Human Services (HHS) from November 1993 to January 1997, and as Acting Assistant Secretary from January 1997 to May 1997. While at HHS, she served as the U.S. representative on the Executive Board of the World Health Organization (WHO) from 1994–1997. She served as President of the New York City Health and Hospitals Corporation (HHC), the largest municipal system in the United States, from December 1985 until October 1989. She was elected to membership in the Institute of Medicine (IOM) in 1992, served as its Foreign Secretary from July 2006 until December 2014, and is a member of Board on Global Health. Dr. Boufford attended Wellesley College for two years and received her BA (Psychology) magna cum laude from the University of Michigan, and her MD, with distinction, from the University of Michigan Medical School. She is Board Certified in pediatrics.

Carlos Dora, *Coordinator, Public Health and the Environment Department, WHO, Switzerland*

Dr. Carlos Dora, is a medical doctor and epidemiologist (MD-PhD) by training, he has a distinguished career in public health and environmental issues. At WHO, he is coordinator of the Unit "Interventions for Healthy Environments" which is part of the Department of Public Health and Environment. In this capacity, he has spearheaded efforts to bring together the various types of Health Impact Assessment (HIA) at the global level, in particular by organising the April 2010 conference in Geneva, which focused on HIA in Cities and HIA in Extractive Industries. Dr. Dora works on the interface between knowledge and practice. At WHO, he previously developed a programme on the environmental health implications of transport policies, and before that he worked on environmental health problems in Eastern Europe. He has also served as a senior policy analyst at the WHO Director General's office. As part of the WHO transport programme, he has led assessments of the evidence for transport and health links, has analysed economic and policy implications of not taking health into account of those policies, including how the

PLENARY SPEAKER BIOS

situation may be improved by international law. Before joining WHO, he worked in environmental epidemiology at the London School of Hygiene and Tropical Medicine, where his Ph.D. thesis involved a retrospective cohort study on risk factors for cardiovascular disease in developing countries. Before that, he worked in internal medicine, in post-graduate medical training and in the organization of local preventive and health care services in Brazil and the United Kingdom.

Birgit de Boissezon, *Head of Unit for 'Sustainable Management of Natural Resources', European Commission, Belgium*

Birgit de Boissezon, since 2001 Head of Unit in the European Commission (EC), currently for 'Sustainable Management of Natural Resources', DG Research & Innovation. This Unit defines and implements, underpinned by the EU Research and innovation programme Horizon 2020, objectives and priorities for nature-based solutions to societal challenges with economic, social and environmental benefits. The aim is to help innovate and re-nature cities, mitigate and adapt to climate change, manage and reduce disaster risks, restore biodiversity and ecosystems, improve health, increase resilience and valorise cultural heritage. Previous assignments in the EC related to research strategy and policy, planning, implementation and evaluation of EU research framework programmes. Research counsellor at the Danish Permanent Representation to the EU in Brussels, negotiating EU research and education programmes (3 years). In the Danish Ministry of Research in charge of EU research framework programme coordination at national level and of dissemination and use of S/T results (6 years). Following a degree (MSc+1) in biology from the University of Copenhagen and a grant related to Bilharzia from the Danish Research Council, her career started in the French dairy branch organisation CNIEL/CIDIL in Paris, as Head of its Information and Documentation Centre (6 years).

Joan Clos, *Executive Director of the United Nations Human Settlements Programme (UN-Habitat), USA (invited)*

Dr. Joan Clos is the Executive Director of the United Nations Human Settlements Programme (UN-Habitat), at the level of Under Secretary General by the United Nations General Assembly. He has held this office since October 2010. Born in Barcelona, he is a medical doctor with a distinguished career in public service and diplomacy. He was twice elected Mayor of Barcelona, serving from 1997 until 2006. He was Minister of Industry, Tourism, and Trade of Spain, and also served as the Spanish Ambassador to Turkey and Azerbaijan. He is a medicine graduate from the Universidad Aut3noma Barcelona (UAB), and specialized in Public Health and Epidemiology at the University of Edinburgh. Dr. Clos served as President of Metropolis, President of the World Association of Cities and Local Authorities (WACLAC), Chairman of the

PLENARY SPEAKER BIOS

United Nations Advisory Committee of Local Authorities (UNACLA) and as a member of the Council of European Municipalities and Regions (CEMR).

Remy Sietchiping, *Leader, Regional and Metropolitan Planning Unit, Urban Planning and Design Branch, United Nations Human Settlements Programme (UN-Habitat), Kenya*

Remy Sietchiping leads the Regional and Metropolitan Planning Unit at UN-Habitat. He oversees the development of strategic programmes of the UN-Habitat including National Urban Policy, urban rural linkages, metropolitan development and the International Guidelines on Urban and Territorial Planning. Prior to this, Dr Sietchiping was Project Leader of the Global Land Tool Network where he co-ordinated work on tool development processes particularly on access to land and tenure security, land management and planning, land information, land policy and legislation and land-based financing. He has over 20 years' experience working in the UN systems, academia, private sector, public sector and NGOs in Australia, Cameroon, Ethiopia, Jamaica and worldwide. Dr Sietchiping has over 40 publications including books, peer-reviewed articles, papers in proceedings and reports. He holds a Ph.D in Geography from the University of Melbourne, Australia.

Tedros Adhanom Ghebreyesus, *Director-General, World Health Organisation (invited)*

Dr. Tedros Adhanom is the Director-General Elect of the World Health Organization. He was nominated by the Government of Ethiopia, and will begin his five-year term on 1 July 2017. Prior to his election as WHO's next Director-General, Dr Tedros Adhanom Ghebreyesus served as Minister of Foreign Affairs, Ethiopia from 2012–2016 and as Minister of Health, Ethiopia from 2005–2012. He has also served as chair of the Board of the Global Fund to Fight AIDS, Tuberculosis and Malaria; as chair of the Roll Back Malaria (RBM) Partnership Board; and as co-chair of the Board of the Partnership for Maternal, Newborn and Child Health. As Minister of Health, Ethiopia, Dr Tedros Adhanom Ghebreyesus led a comprehensive reform effort of the country's health system, including the expansion of the country's health infrastructure, creating 3500 health centres and 16 000 health posts; expanded the health workforce by 38 000 health extension workers; and initiated financing mechanisms to expand health insurance coverage. As Minister of Foreign Affairs, he led the effort to negotiate the Addis Ababa Action Agenda, in which 193 countries committed to the financing necessary to achieve the Sustainable Development Goals. As Chair of the Global Fund and of RBM, Dr Tedros Adhanom Ghebreyesus secured record funding for the two organizations and created the Global Malaria Action Plan, which expanded RBM's reach beyond Africa to Asia and Latin America.

PLENARY SPEAKER BIOS

PLENARY SESSION 2: Understanding and Addressing Demographic, Epidemiological and Societal Changes in Cities

Yonette F. Thomas, *Science Advisor for Urban Health, New York Academy of Medicine, USA*

Dr. Yonette F. Thomas is science advisor for urban health to The New York Academy of Medicine, a member of the International Society for Urban Health board, and a senior research advisor to the American Association of Geographers. She is a faculty affiliate of the Maryland Population Research Center at the University of Maryland College Park, and a voluntary associate professor in the Department of Public Health Sciences at the University of Miami Miller School of Medicine where she teaches social epidemiology. She was formerly the associate vice president for research compliance at Howard University. She served on the National Academy of Sciences Committee on revisions to the Common Rule for the Protection of Human Subjects in Research in the Behavioural and Social Sciences. Her primary research and publications have focused on the social epidemiology of drug abuse and HIV/AIDS and the link with geography, including edited volumes: *Geography and Drug Addiction*, *Crime, HIV, and Health: Intersections of Criminal justice and Public health Concerns*. She has a PhD in medical sociology and demography, with post graduate training in epidemiology.

Alex Ezeh, *Professor of Epidemiology and Public Health, Federal University of Minas Gerais School of Medicine, Belo Horizonte, Brazil*

Alex Ezeh is the Executive Director of the African Population and Health Research Center (APHRC). Professor Ezeh has guided APHRC to become one of Africa's foremost regional research center addressing population, health and education issues. He also directs the Consortium for Advanced Research Training in Africa (CARTA), an initiative to strengthen the training and retention of academics at African universities. He was a member of the recent Rockefeller Foundation-Lancet Commission on Planetary Health and currently serves on the Lancet Commission on the Future of Health in Africa and co-chairs the Guttmacher-Lancet Commission on Sexual and Reproductive Health in post-2015 world. He is an honorary professor of public health at the University of the Witwatersrand, South Africa and holds an honorary Doctor of Science from KCA University, Kenya, and a doctorate in demography from the University of Pennsylvania, USA. Dr. Ezeh has published extensively in fields of population and reproductive health, urban health, research capacity strengthening, and other development issues in Africa. He serves on the Boards of several organizations including United Nations University – International Institute for Global Health (Kuala Lumpur),

PLENARY SPEAKER BIOS

Alliance for Health Policy and Systems Research (WHO, Geneva), International Initiative for Impact Evaluation (3ie), among others.

Richard Wilkinson, *Co-founder of "The Equality Trust", Professor Emeritus of Social Epidemiology, University of Nottingham Medical School, UK*

Richard Wilkinson, is a British social epidemiologist, author and advocate. Richard has played a formative role in international research on the social determinants of health and on the societal effects of income inequality. He studied economic history at LSE before training in epidemiology. He is Professor Emeritus of Social Epidemiology at the University of Nottingham Medical School, having retired in 2008. He is also Honorary Professor of Epidemiology and Public Health at University College London and Visiting Professor at University of York.

In 2009, Richard co-founded with Kate Pickett "The Equality Trust", which seeks to explain the benefits of a more equal society and campaigns for greater income equality. Richard co-wrote *The Spirit Level* with Kate Pickett which won the 2011 Political Studies Association Publication of the Year Award and the 2010 Bristol Festival of Ideas Prize. Richard was awarded a 2013 Silver Rose Award from Solidar for championing equality and the 2014 Charles Cully Memorial Medal by the Irish Cancer Society. Two of his books have been the subject of documentary films – one called "The Great Leveller" for the Channel 4 TV Equinox series broadcast in prime time in 1996 (to coincide with the publication of his *Unhealthy Societies*) and another, called "The Divide" (based on *The Spirit Level*) released in April 2016 and now available on Netflix.

John Beard, *Director of the Department of Ageing and Life Course, World Health Organization (WHO), Switzerland*

Dr John Beard is Director of the Department of Ageing and Life Course with the World Health Organization (WHO) in Geneva. WHO has identified ageing as a priority area of work, and John leads a "whole of Organization" response that draws on the extensive capacity of the Organization's many Departments, Regions and Country Offices. He was lead editor of the first World report on ageing and health which was released in 2015 and co-editor of the 2014 Lancet series on Ageing. His team was responsible for drafting the Global Strategy and Action Plan on Ageing and Health which was adopted by WHO's 194 Member States in 2016. WHO's ongoing work on ageing and health includes major global research and knowledge translation initiatives with a particular focus on low and middle income countries, as well as the WHO Global Network of Age-friendly Cities and Communities which now includes around 400 cities in 40 countries. John is an Australian physician and has held senior public health and academic roles in Australia and the USA. He is past chair of the World Economic Forum's Global Agenda Council on Ageing and a current member of their Council on

PLENARY SPEAKER BIOS

the Future of Human Enhancement. He remains actively involved in several large international research projects, and has a particular interest in the influence of the physical, social and economic environments on health.

K. Srinath Reddy, *President, The Public Health Foundation of India, New Delhi, India*

Prof. K. Srinath Reddy is presently President, Public Health Foundation of India (PHFI) and formerly headed the Department of Cardiology at All India Institute of Medical Sciences (AIIMS). He was appointed as the First Bernard Lown Visiting Professor of Cardiovascular Health at the Harvard School of Public Health in 2009. He is also an Adjunct Professor of the Rollins School of Public Health, Emory University and Honorary Professor of Medicine at the University of Sydney. He has served on many WHO expert panels and has been the President of the World Heart Federation (2013-14). He chaired the Core Advisory Group on Health and Human Rights for the National Human Rights Commission of India for several years and was a member of the first National Science and Engineering Research Board of Government of India. He recently chaired the High Level Expert Group on Universal Health Coverage, set up by the Planning Commission of India. He has also served as the President of the National Board of Examinations which deals with post-graduate medical education in India. Prof. Reddy is a member of the Leadership Council of the Sustainable Development Solutions Network (www.unsdsn.org), established to assist the United Nations in developing the post-2015 goals for sustainable development. He chairs the Thematic Group on Health in the SDSN. Prof. Reddy is a high level panel member on the Global Panel on Agriculture and Food Systems for Nutrition. Prof. Reddy has been involved in several major international and national research studies and edited the National Medical Journal of India for 10 years. He has more than 400 scientific publications in international and Indian peer reviewed-journals. His contributions to public health have been recognized through several awards and honours. He has also won prestigious literary awards such as: the Global Peace Essay contest organized by Economists Allied for Arms Reduction – ECAAR – and judged by 9 Nobel Laureates and the Times of India Essay contest on Human Rights and Media. He was a prize winning debater and quizzer at school and college levels.

PLENARY SPEAKER BIOS

PLENARY SESSION 3: Urban Governance and Equity-oriented Policies

Marcus Grant, *Advisor to WHO Healthy Cities Programme, Director of SHINE (Supporting Healthier Inclusive Urban Environments) Bristol Health Partners, UK*

Marcus Grant is former Associate Professor and deputy director of the WHO Collaborating Centre for Healthy Urban Environments at the University of the West of England (2009 until 2015), where he helped develop the much cited 'Health Map'; building on the work of Dahlgren and Whitehead. Currently he is a co-director of a team at Bristol Health Partners focussing on bridging the evidence-implementation gap for healthy neighbourhood development in his native city of Bristol. He is also Editor-in-Chief of the new Routledge journal, 'Cities and Health', which seeks to develop 'City Know-how' from academic knowledge. Marcus has been an independent advisor to the World Health Organisation on healthy urban development for over 15 years. Recent WHO work has involved the 'New Urban Agenda' UN Habitat III process and evidence reviews of age-friendly and child-friendly urban environments. Marcus's background is an urban designer; as such he is chartered member of the Landscape Institute. Marcus was a founding member of the National Institute of Health Research's Public Health Research scientific board, serving from 2009-2014. Marcus is a fellow of the Faculty of Public Health and a member of the Academy of Urbanism.

Ricardo Baptista Leite, *Member of Portuguese Parliament, Portugal*

Medical Doctor and Member of the Portuguese Parliament, where he sits on the Health and on the Foreign Affairs Committees. Dr. Baptista Leite is a City Councilor in Cascais, responsible for health strategy, international relations, youth and employment policies. Under the auspices of UNAIDS, Ricardo is Founding President of 'UNITE – Parliamentarians Network to End HIV/AIDS, Viral Hepatitis and Tuberculosis', a global platform of policy makers. Ricardo is one of six people to have been acknowledged globally by 'The Economist' as a 'HCV Change Maker' in recognition of his leadership in the field of hepatitis c. He is Head of Public Health at Católica University of Portugal, Coordinator of Sustainable Healthcare at NOVA Information Management School and Guest Lecturer at NOVA Medical School. Prior to being elected MP, Ricardo was a practicing physician during 7 years, including a 5-year Infectious Diseases residency and an internship at the WHO/EURO in Copenhagen. He completed post-graduate studies in multiple universities including John Hopkins University, Harvard Kennedy School of Government and Harvard Medical School. PhD candidate at Maastricht University. Dr Baptista Leite is the founder of CREATING HEALTH – Research and Innovation Funding. Further he is co-author of the book "Citizenship for Health", among other publications.

PLENARY SPEAKER BIOS

Jason Corburn, *Professor of City & Regional Planning, University of California at Berkeley, USA*

Jason Corburn is a Professor in the Department of City and Regional Planning and the School of Public Health at the University of California, Berkeley. He is also the Director of the Institute of Urban and Regional Development and the Center for Global Healthy Cities at UC Berkeley. Professor Corburn's research focuses on urban health equity, health impact assessment, urban climate change, and informal settlements and health. His projects include participatory action research, where communities engage in the science of measuring risks, developing and implementing solutions to the hazards they face.

Professor Corburn has worked with community groups and governments in cities across the US and in Brazil, Colombia, Kenya, France and India. He co-chairs the World Health Organization (WHO), sub-committee on Urbanization, Informal Settlements and Health Equity. He is the author of number of award winning books, including: *Street Science: Community Knowledge and Environmental Health Justice* (MIT Press, 2005), *Toward the Healthy City: People, Places and the Politics of Planning* (MIT Press, 2009), *Healthy City Planning* (Routledge, 2013) and *Slum Health* (UC Press, 2016). He received his PhD and Master of City Planning from MIT and completed a post-doc in epidemiology at Columbia University.

David Grossman, *Director, International City Managers Association, USA*

David Grossman brought 30 years of technical and managerial experience in international development to his position when he became director of ICMA International in January 2008. (In 2015, ICMA international and U.S. technical assistance activities were merged to establish ICMA Global Programs). In addition to his experience in municipal development, he has expertise in such areas as finance, credit, and urban infrastructure. He began his professional career with the New York City Planning Commission. After a year with the United Nations Development Program, he joined the U.S. Agency for

International Development (USAID) as a Foreign Service Officer, first serving in Honduras and Costa Rica. From 1984 to 1994 he worked in the USAID Office of Housing and Urban Programs, including serving as its chief operating officer (COO). He later held COO positions with USAID's Global Bureau Environment Center and USAID's Office of Development Credit. He has a bachelor's degree in political science/Latin American studies from the State University of New York at Buffalo and a master's degree in international affairs, with a specialization in economics and urban planning, from Columbia University, in New York City.

PLENARY SPEAKER BIOS

Susan Parnell, *University of Cape Town, South Africa*

Susan Parnell is Professor of Urban Geography and co-founder of the African Centre for Cities at the University of Cape Town. She has held previous academic positions at Wits University and the School of Oriental and African Studies as well as visiting research fellowships from LSE, Oxford, Durham and the British Academy. She was a Leverhulme Visiting Professor at UCL and Emeka Anyaoku Visiting Chair, University of London. She is currently Visiting Professor at LSE. Recent co-authored and edited books including *Building a Capable State; The Urban Planet; Climate at a City Scale, A Routledge Handbook of Cities of the Global South* and *Africa's Urban Revolution* and she has published over 100 peer reviewed papers. Beyond the academy, Sue is an urban specialist who has been directly involved in NGOs and applied research and policy processes. She is currently engaged in issues relating to National Urban Policies and the 2030 Agenda.

PLENARY SESSION 4: Healthy Urban Planning, Measurement and Metrics, Data, Research & Education

Gérard Salem, *Professor, Université de Paris Ouest, France*

Prof. Gérard Salem is Professor at the University of Paris. After completing a BA and MA degree in Geography (University of Paris 1 – Sorbonne), he went on to receive a PhD in African Studies at the Ecole des Hautes Etudes en Sciences Sociales (E.H.E.S.S.) in Paris. Additionally, he completed a master in urbanism at the Institut d'Études Politiques de Paris, and another master in epidemiology from the Pasteur Institute in Paris. As a researcher with ORSTOM, he worked from 1980-1988 and from 2009-2012 in Senegal; has been Full Professor of Geography of Health at the University of Paris – Nanterre (1997- 2015). He is currently Professor emeritus, member of the Scientific Committees of International Society of Urban Health, and International Geographical Union.

Billie Giles-Corti, *Director Urban Futures Enabling Capability Platform, RMIT University, Melbourne, Australia*

Professor Billie Giles-Corti is a Redmond Barry Distinguished Professor and National Health and Medical Research Council (NHMRC) Senior Principal Research Fellow at the University of Melbourne. She directs the McCaughey VicHealth Community Wellbeing Unit in the Centre for Health Equity. For over two decades, she and a multi-disciplinary research team have been studying the impact of the built environment on health and wellbeing; and she currently leads an NHMRC Centre of Research Excellence in Healthy Liveable Communities established in 2014. She has published

PLENARY SPEAKER BIOS

over 300 articles, book chapters and reports, and by citations, is ranked in the top 1% of researchers in her field globally. She is an Honorary Fellow of both the Planning Institute of Australia and the Public Health Association, a Fulbright Scholar and an NHMRC Elizabeth Blackburn Fellow as the top ranked female in public health in 2015. In 2017, she will take up a position at the Royal Melbourne Institute for Technology (RMIT) as its Urban Futures Enabling Capability Platform Director, where her role will be to bring together multi-disciplinary research teams to help solve complex urban problem.

Aromar Revi, *Director, Indian Institute for Human Settlements (IIHS), Bangalore, India*

Aromar Revi is the Director of the Indian Institute for Human Settlements (IIHS) and an alumnus of IIT-Delhi and the Law and Management schools of the University of Delhi. He is an international practitioner, researcher and educator with over 30 years of interdisciplinary experience in public policy and governance, political economy of reform, development, technology, sustainability and human settlements. He is co-chair of the UN Sustainable Development Solutions Network (SDSN) and of its Urban Thematic group where he led a successful global campaign for an urban Sustainable Development Goal (SDG) for the UN. He represents SDN on the Managing Board of Cities Alliance the global partnership for sustainable cities and urban poverty reduction. He has led over 100 major research, consulting & implementation assignments in India and abroad; has published over 65 peer reviewed publications and books; lectured & taught at over 35 of the world's leading Universities and think tanks across 6 continents; helped structure, design & review development investments of over \$ 8 billion; worked on 3 of the world's 10 largest cities; across all of India's 29 states and in multiple international projects in half a dozen countries.

Waleska Caiaffa, *Professor of Epidemiology and Public Health, Federal University of Minas Gerais School of Medicine, Belo Horizonte, Brazil*

Dr. Waleska Teixeira Caiaffa holds a MPH (International Health and Epidemiology) by Johns Hopkins University (JHU) – Bloomberg School of Public Health, PhD in Parasitology, concentration area of epidemiology by the Federal University of Minas Gerais and post-doctoral epidemiology at JHU. She is full professor of Epidemiology and Public Health at the Federal University of Minas Gerais, School of Medicine in Belo Horizonte, Brazil, where she leads the Observatory for Urban Health in Belo Horizonte (OSUBH). Dr. Caiaffa spearheads OSUBH's local, national and international lead roles on urban health focusing on urban inequalities; social-level determinants of health and evaluation of health of city and neighbourhood-level policies/interventions by capitalizing on natural experiments on non-communicable and communicable diseases. She was president of the International Society for Urban Health at the

PLENARY SPEAKER BIOS

New York Academy of Medicine (ISUH/NYAM) from 2011 to 2014; in 2011 she chaired the 10th International Conference for Urban Health (ICUH), in Belo Horizonte, Brazil. She is a consultant for the Brazilian Ministry of Health and member of the Board of Advisors of United Nations University, International Institute for Global Health. Dr. Caiaffa is a member of the editorial board of the Journal of Urban Health and has participated in several editorial activities; scientific committees; review panels; invited lectures and symposiums as well as consultative activities.

PLENARY SESSION 5: Health Care in Cities: Access, Services and Quality

Mark W. Rosenberg, *Professor of Geography, Queen's University, Ontario, Canada*

Mark W. Rosenberg is a Professor of Geography in the Department of Geography and Planning cross-appointed as a Professor in the Department of Public Health Sciences at Queen's University in Kingston, Ontario, Canada. He is also an adjunct professor in the United Nations University Institute for Water, Health, and the Environment and is the Tier 1 Canada Research Chair in Development Studies. Professor Rosenberg received his undergraduate training at the University of Toronto and his graduate training at the London School of Economics and Political Science (LSE). Among the many honors, he has received, most recently, Professor Rosenberg received a Queen Elizabeth Diamond Jubilee Medal for his research on Canada's aging population, contributions to gerontology and service to older Aboriginal and non-Aboriginal populations in 2012. He is an Honorary Professor in the Chinese Academy of Sciences – Institute of Geographic Sciences and Natural Resources Research. He was the Co-chair of the Scientific Steering Committee of the Earth System Science Partnership on Global Environmental Change and Human Health and a Steering Group Member of the International Human Dimensions Programme on Global Environmental Change Advisory Group on Human Health. Publications from his research can be found in the leading journals of geography, gerontology, social science and medicine.

Pedro Pita Barros, *Professor of Economics, Nova University of Lisbon, Portugal*

Pedro Pita Barros is Professor of Economics at Universidade Nova de Lisboa where he teaches industrial organization and health economics. He is also a research fellow at the Centre for Economic Policy Research (London). Past president of the European Association of Health Economics (2013-2016). Member of Conselho Nacional de Ética para as Ciências da Vida. Member of the EC Expert Panel on Effective Ways of Investing in Health (2013-2016). Has held several official positions at Universidade Nova de Lisboa. His research focuses on issues on health economics and on regulation and competition policy. His

PLENARY SPEAKER BIOS

work has covered different topics including: health expenditure determinants, waiting lists, bargaining in health care, competition policy in Portugal and in the European Union, among others. His research has appeared in many academic journals (such as the Journal of Health Economics, Health Economics, Economic Journal, European Economic Review, Journal of Industrial Economics, Journal of Economics and Management Strategy, among others).

Steffen Nielsen, *Director, Cities Changing Diabetes®, Novo Nordisk, Denmark*

Steffen is the Director responsible for driving the team behind the Novo Nordisk flagship programme Cities Changing Diabetes that addresses urbanisation, obesity and diabetes in collaboration with academia, thought leaders and municipal champions. Steffen has an MSc in economics from University of Copenhagen and has worked 13 years in the pharmaceutical industry 8 of those in Novo Nordisk. Before joining the pharmaceutical industry, Steffen worked as a civil servant in the Danish Ministry of the Interior and Health.

Sawsan A. S. Al Madhi, *Director General Friends of Cancer Patients; Head of Awareness/Medical Committee, UAE*

Dr. Sawsan A. S. Al Madhi, Director General for Friends of Cancer Patients UAE, Head of Awareness/Medical Committee of the Pink Caravan has more than 114 years' progressive leadership skills and experience. Dr. Al Madhi is an Internal Medicine specialist and Fellow of The Royal Society of Medicine (London). Honor class Master's degree holder in Healthcare management from the Institute of Leadership of the Royal College of Surgeons of Ireland and RCSI Alumni board member, UAE chapter. Having medical, nonprofit and international expertise, Dr. Al Madhi strives to achieve excellence, sustainability, and attain results in health focused non-profit sector and the public health education & promotion within UAE and internationally. Other areas of expertise include: public speaking and academia.

Shamim Hayder Talukder, *CEO of Eminence (Bangladesh) and President of ISUH*

Shamim Hayder Talukder has been leading the non-government organization Eminence Associates for Social Development (www.eminence-bd.org) since it's inception in August 2003. His experience and leadership place the organization to act as secretariat of four national civil society organizations named "Bangladesh Urban Health Network", "Non-Communicable Diseases Forum", "Bangladesh Civil Society Network for Promoting Nutrition" and "Global Citizen

Forum for Sustainable Development Goals". As a dynamic leader he extended his current position at global level as the President of the International Society for Urban Health (ISUH). Under his headship, Eminence recognized itself as an affiliated member of the several international association such as "International Diabetes Federation", "World Heart Federation", "Union for International Cancer Control", "International Epidemiological Association", and "Population and Sustainable Development Alliance" etc. Academically Dr. Md. Talukder completed his medical graduation (MBBS) from Bangladesh followed by his Masters in Philosophy (MPhil) degree in International Community Health from Oslo University, Norway. Public health and clinical research are the key concern areas of his activities. He also has keen interest in implementing community-based program through different innovative ideas and approaches. Dr. Talukder is running a number of development related philosophical global campaigns on community business model for ensuring the utmost ethics in business for development. To ensure the global peace and enhancing the positive deviance of human relationships, no more five, the human basic needs should include 'information technology' as its sixth need and education should be the key independent indicator for measuring the human development and wealth quintiles. Dr. Md. Talukder is implementing several integrated urban community based model such as 'SHOSTI' (Securing Health Through Safe Treatment and Other Interventions) for health services, 'SSD' (School for Sustainable Development) for building technical and vocational capacity of the professionals including general education for underprivileged children by cross financing and sponsorship model. He initiated an urban community based surveillance system using mobile and Internet technology as well as geographical information System (GIS) for mapping urban expanses of Bangladesh. Dr. Md. Shamim Talukder is highly professional in accommodating any innovative ideas for partnerships, sharing the organizational platform for any research and program. He always encourages the involvement for student, volunteer, donor, academician, journalist and political leader to add value on the global development arena.

PLENARY SESSION 6: Environmental Health and Urban Sustainability

Marian Jacobs, *Emeritus Professor of Paediatrics and Child Health, University of Cape Town, South Africa*

Marian Jacobs is a public health pediatrician and Emeritus Professor of Paediatrics and Child Health at the University of Cape Town in South Africa, from which she retired as Dean of the Faculty of Health Sciences in 2012. During a career spanning almost four decades, she has been actively involved in child health, higher education, health policy and health research development at the University of Cape Town, in South Africa, as well as globally. At the University, she founded the Children's Institute, which continues to provide evidence to guide policies and practices to promote child-wellbeing, and to advocate for equitable

PLENARY SPEAKER BIOS

access to quality care and services for children. She has contributed to leadership of health and development initiatives in the state and in civil society in South Africa; and globally, she has led the boards of the Center for Health Research (“ICDDR” in Bangladesh, the Council on Health Research for Development in Geneva, and the African Population and Health Research Centre, based in Kenya. She continues her commitment to advancing global health equity through efforts such as her membership of the Advisory Committees of the Institute for Healthcare Improvement (IHI) and the Doris Duke Foundation-funded Africa Health Initiative.

Yongguan Zhu, Professor of Soil Environmental Sciences and Environmental Biology, *Chinese Academy of Sciences (CAS); Director General, Institute of Urban Environment, Xiamen, China*

Dr Yongguan (Y-G) Zhu, Professor of Biogeochemistry and Environmental Biology, is the Director General of the Institute of Urban Environment, Chinese Academy of Sciences (CAS). He has been working on the biogeochemistry of nutrients, metals and emerging pollutants (such as antibiotics and antibiotic resistance genes). He obtained his PhD from Imperial College, London in 1998. Professor Zhu is a leader in taking multi-scale and multi-disciplinary approaches to soil and environmental problems. Dr Zhu is currently the co-editor-in-chief of

Environmental Technology & Innovation (Elsevier), associate editor of *Environment International* (Elsevier), and editorial members for a few other international journals. He is a scientific committee member for the ICSU program on Human Health and Wellbeing in Changing Urban Environment, and served for nine years as a member of Standing Advisory Group for Nuclear Application, International Atomic Energy Agency (2004-2012). Professor Zhu is the recipient of many international and Chinese merit awards, among them including TWAS Science Award 2013, National Natural Science Award 2009; Professor Zhu has published over 200 papers in international journals, and these publications have attracted over 10,000 citations (Web of Science) with an H-index of 58. He was selected as a Web of Science Highly Cited Researcher (2016).

Sotiris Vardoulakis, *Research Director, Institute of Occupational Medicine, United Kingdom*

Sotiris Vardoulakis, MSc, PhD, is an environmental public health scientist; he is currently Research Director of the Institute of Occupational Medicine (IOM) in Edinburgh, an Honorary Senior Lecturer at the London School of Hygiene and Tropical Medicine, and an Associate Professor at the European Centre for Environment and Human Health at Exeter University. He was previously Head of the Environmental Change Department, and Leader of the Air Pollution and

Climate Change Group at Public Health England. He has extensive experience of working in the public health sector, local government, research and academia in the UK and overseas. Dr Vardoulakis is Co-Chair of the International Consortium for Urban Environmental Health and Sustainability (“Healthy-Polis”), and has been the Health Sector Champion and one of the main

PLENARY SPEAKER BIOS

authors of the first national UK Climate Change Risks Assessment and key contributor to the UK National Adaptation Programme. He has advised government departments and international organisations on issues related to air quality, climate change and public health. He has been involved in several national and EU funded projects on environmental health, including EURO-HEALTHY, INTARESE, PUE, and ATREUS.

Lidia Morawska, *Director of the International Laboratory for Air Quality and Health (ILAQH), Queensland University of Technology (QUT), Brisbane, Australia*

Lidia Morawska is a Professor at the Science and Engineering Faculty, Queensland University of Technology (QUT) in Brisbane, Australia, the Director of the International Laboratory for Air Quality and Health (ILAQH) at QUT, which is a Collaborating Centre of the World Health Organization, and a co-director of the Australia-China Centre for Air Quality Science and Management. She conducts fundamental and applied research in the interdisciplinary field of air quality and its impact on human health and the environment, with a specific focus on science of airborne particulate matter (ultrafine and nanoparticles). Professor Morawska is a physicist and received her doctorate at the Jagiellonian University, Krakow, Poland for research on radon and its progeny. Prior to joining QUT she spent several years in Canada conducting research first at McMaster University in Hamilton as a Fellow of the International Atomic Energy Agency, and later at the University of Toronto. Dr Morawska is an author of over four hundred fifty journal papers, book chapters and refereed conference papers. She has also been involved at the executive level with a number of relevant national and international professional bodies and has been acting as an advisor to the World Health Organization. She is a past President of the International Society of Indoor Air Quality and Climate.

Eugenie Birch, *Former Chair, United Nations Human Settlements Programme World Urban Campaign, USA*

Eugénie L. Birch FAICP, RTPI (hon), holds the Nussdorf Professorship for Urban Research, School of Design, University of Pennsylvania where she chairs the Graduate Group in City and Regional Planning. Founding co-director, Penn Institute for Urban Research, she is also co-editor of Penn Press's *The City in the 21st Century* series and co-editor of the *SSRN Urban e-journal*. Dr. Birch's most recent publications include *Slums: How the Informal Real Estate Markets Work* (University of Pennsylvania Press, 2016) and "A Midterm Report: Will Habitat III Make a Difference to the World's Urban Development?" *Journal of the American Planning Association* (82:4 2016 398-411). In her home city, Dr. Birch has served as a member of the New York City Planning Commission, and on the jury to select the designers for the World Trade Center site. She has also served as chair, UN-HABITAT's World Urban Campaign, president, General Assembly of Partners and member of the U.S. delegation to Habitat III. Dr.

PLENARY SPEAKER BIOS

Birch, who lives in New York City, holds a PhD and Master degree in Urban Planning from Columbia University.

EXHIBITORS

Options is an international development consultancy organisation working primarily in the health sector to transform the health of women and girls in developing countries. We work in partnership with governments, health workers, civil society and businesses to bring together knowledge, expertise and influence to ensure everyone has access to the health care they need. Our origins are in maternal, new-born and reproductive health, but we also work more broadly across the health sector, bringing about sustainable improvements in health.

Our work focuses on three key goals:

- To build strong, sustainable systems that improve healthcare for all;
- To empower communities to have easy access to high quality healthcare;
- To be a catalyst, driving social change.

We have 25 years' experience of delivering lasting results on complex programmes in the health and social sectors – from health systems strengthening programmes in Nepal to social change campaigns across sub-Saharan Africa on issues like maternal survival and female genital mutilation. We shape and work in consortia, develop and manage results frameworks to measure progress, and capture and share evidence of success. We have a keen understanding of what works and bring a wealth of technical expertise and innovation to every programme we work on.

Routledge is the world's leading academic publisher in the Humanities and Social Sciences. We publish thousands of journals and books each year, serving scholars, instructors, and professional communities worldwide. Routledge is a member of Taylor & Francis Group, an informa business. We are the publisher of the new journal '*Cities & Health*' which provides an innovative international platform for consolidating research and know-how for city development to support human health.
